Compact Mastery, Iconic Design

Born from the KING legacy, KING 15 brings iconic curved glass into a compact Micro-ATX form. With precision airflow engineered in a chimney pattern, it delivers the cooling power to today's next-gen GPUs demand — all in a design that fits anywhere without compromise.

Panoramic Clarity, Iconic Style

Turn your build into art. The curved glass opens a panoramic view that celebrates your components in stunning clarity.

Precision Architecture, Performance Perfected

Smarter design, stronger performance. The dual-chamber layout keeps airflow efficient and cables hidden for a rig that's as sleek as it is powerful.

Airflow That Bends to Your Advantage

Cooling where it counts. Angled bottom fans channel fresh air straight to your GPU, keeping next-gen hardware running at peak power.

Chimney Effect Cooling for Next-Gen GPUs

Direct bottom-to-top airflow pulls heat off oversized GPUs and exhausts it upward — reducing core temps for steadier clocks and longer peak performance.

Compact by Design, Uncompromised in Power

KING 15 is crafted for compact setups while still supporting the latest GPUs, tall CPU coolers, and even top-mounted 360mm radiators up to an extreme 84mm thick — fully compatible with the most premium liquid cooling systems on the market. Delivering uncompromised cooling power in a sleek Micro-ATX form.

Performance That Shines 360°

AX120 PRO fans engineered to deliver more than just airflow. Optimized blade geometry pushes 10% more airflow for lower system temps. At the same time, immersive 360° ARGB lighting transforms your build into a visual statement, glowing from every angle with vibrant, customizable effects.
