Pagrindinės savybės

- ✓ 270° GyroWing™ Airflow: Natural, even cooling in every corner
- ✓ 16x AirBoost™ Tech: Faster, farther-reaching cooling
- ✓ Rapid Refresh: Circulates up to 538ft² space in 4 minutes
- ✓ Bladeless Breeze: Gentle air without harsh buffeting
- ✓ TempSync™ Control: Adaptive airflow for all-day comfort
- ✓ Custom SceneMaster Winds: Airflow tailored to your routine
- ✓ Intuitive Control: Effortless operation via app or voice

Aprašymas

270° Spatial Airflow by GyroWing™

Circulate Fresh Air Throughout the Room

Enabled by two GyroWing™ that independently rotate up to 90° vertically, the system generates up to 270° of spatial airflow. Air moves left to right and top to bottom, helping eliminate hot and cold spots for balanced comfort throughout your space.

16x Amplified Airflow, Farther Reach

AirBoost™ technology draws in surrounding air to amplify airflow up to 16x, delivering steady, long-distance cooling with efficient power use.

Refresh for Spaces up to 538ft² in 4 Minutes

Amplified airflow combined with ultra-wide-angle delivery creates a 3D surround air field, driving complete circulation throughout your space. Refresh a 538ft² room in just 4 minutes—so comfort reaches every corner, faster.

Gentle Air, Lasting Comfort

High-speed internal blades finely cut and mix the air to create a smooth, continuous breeze that feels gentle and natural. Unlike harsh, turbulent gusts from conventional fans, it avoids abrupt air impacts that can cause head discomfort and irritation.

Even Cooling That Envelops You

A circular air channel transforms scattered airflow into a soft, concentrated air column—creating an invisible cooling curtain that gently surrounds

your entire body.

Visible Simplicity, Invisible Precision

Four-Zone Circular Air Channel

Concentrates airflow for stronger, more efficient circulation.

Curved Guide Ribs

Smooth airflow evenly to reduce turbulence and noise.

High-Precision Stepper Motor

Precise, stable oscillation with long-term durability.

Optical Alignment Sensors

Keep dual air wings perfectly synchronized for seamless rotation.

Enlarged Air Intake

Reduces intake velocity and vortex formation for quieter airflow.

Vibration Damping Design

Absorbs vibration and minimizes structural resonance.

Biomimetic Bird-Wing Impeller

For efficient airflow with lowered aerodynamic noise.

Magnetic Dust Panel

Tool-free removal for quick cleaning.

TempSync™ Technology

Adaptive Cooling for Changing Needs

Automatically adjusts airflow as room temperature changes—stronger in heat, gentler in cool—delivering consistent comfort without manual adjustment.

Optimal Comfort, Made Easy

Built-in temperature sensing works with an intelligent algorithm to continuously fine-tune airflow in real time. The result: smooth, natural cooling that adapts to your environment—so you don't have to.

Stay Cool All Night for under 1 kWh

Automatically adjust fan speed based on real-time temperature, delivering efficient airflow while optimizing energy consumption. At low speed settings, it consumes less than 1 kWh over the entire night.

Personalized Comfort, Automatically

Featuring a Timer and the SceneMaster™ system, the fan triggers preset functions based on your schedule or ambient temperature—adjusting airflow intelligently to match your daily routine.

3 Airflow Modes

Air That Moves with Your Rhythm

True comfort is never static. Sometimes gentle, sometimes powerful—always natural. Three engineered airflow modes keep the air fresh, dynamic, and never monotonous.

Washable Filter for Cleaner Air

Effectively captures hair, dirt, and larger debris before they circulate through your space. Washable and reusable, it helps maintain cleaner airflow

while reducing long-term replacement costs.

Optional Filter

Upgraded Air Quality

Upgrade your airflow with the optional filter, designed to capture airborne particles larger than PM2.5, helping keep indoor air cleaner with every use. Dreamehome App monitors filter usage and reminds you when to replace, so performance stays consistent without guesswork.

Quick Assembly, Hassle-Free Maintenance

Clear clips and connectors enable a simple, intuitive three-step assembly. Every component can be easily detached, allowing for thorough cleaning and compact, tidy storage.

Bladeless Design—Less Dust, Less Hassle

Without traditional high-speed fan blades, dust buildup is minimized, cleaning is simpler and more convenient for everyday use.

Enhanced Airflow for Whole-Room Comfort

Our breakthrough three-dimensional Coanda airflow creates balanced circulation and a smoother wind experience—so you and your family feel refreshed, wherever you are in the room.

Multi-Layer Safety, Built for Everyday Confidence

An electronic child lock helps prevent accidental operation, while 8 layers of circuit protection support stable and reliable performance during extended use.

Enclosed Bladeless Structure

High-speed components are fully enclosed, reducing the risk of accidental contact—ideal for homes with children or pets.

Stable Metal Base

A weighted metal base lowers the center of gravity for enhanced stability during everyday use.

Easy-to-Clean Vent

The smooth, seamless aluminum vent can be wiped clean with a damp cloth, supporting long-lasting durability and simple maintenance.

Techninė specifikacija

Specifications	
Sandėlio grupė	Humidifiers [+41][-41]
Features	
Type	Household bladeless fan
Product colour	Beige
Placement	Floor
Number of speeds	10
Auto oscillating	Yes
Housing material	Metal
Suitable for room area up to	50 m²
Vertical auto rotation	Yes
Control type	Touch

Wi-Fi controlled	Yes
Mobile app support	Yes
Timer	Yes
Built-in display	Yes
Display	LED
Cord length	1.8 m
Washable filter	Yes
Number of modes	3
Breeze function	Yes
Voice control	Yes
Power	
Power source type	AC
Output power	55 W
Overheat protection	Yes
Weight & dimensions	
Width	270 mm
Depth	375 mm
Height	1012 mm
Weight	6.3 kg
Packaging data	
Remote control included	Yes
Manual	Yes
Matmenys ir svoris	
Matmenys (I × P × A)	79,00cm × 57,00cm × 33,00cm
