Aprašymas

Optimal humidity

The optimal humidity recommended by medical specialists is in the range of 40 to 60% relative humidity. People perceive the air in indoor spaces with humidity in this range as pleasant and having optimum humidity. This humidity level is thus ideal for the health of people and animals as well as protecting furniture, wooden floors, musical instruments, antiques, plants and many more valuable items indoors from drying out.

The CA-603, an effective humidifier with ioniser and aromatherapy, automatically regulates the optimal humidity and improves air quality in all indoor spaces occupied by people for living, sleeping, working, recreation, etc.

Humidifying indoor air by ultrasonic humidification

Healthy, fresh and optimally humidified indoor air prevents irritated airways, dry skin and drying out of valuable interior items. Ultrasonic technology can be used to achieve the right humidity in indoor spaces during periods of low relative humidity.

Ultrasonic technology is one of the most effective methods of humidifying indoor spaces. Ultrasonic water atomisation is carried out by a small, high-frequency vibrating plate (membrane) in the water tank. The ultrasonic membrane finely atomises the water into a cold mist, which is then released to the indoor air by a gentle airflow from a fan.

Ionisation air purification

The built-in ioniser produces negative oxygen ions that purify and refresh indoor air in addition to humidification. Negative ions attach themselves to dust particles, microorganisms and other undesirable substances in the air and bind them together. These particles become heavier than the air, drop down and are thus filtered out of the air.

Aromatherapy with essential oils from Clean Air Optima®

The use of essential oils is known as aromatherapy. Aromatherapy focuses on maintaining and promoting health, and healing disorders. Aromatherapy has an air purifying effect and removes unpleasant odours. Use it to create a pleasant ambience in your living spaces and enjoy feeling comfortable and more relaxed. Clean Air Optima®'s high-quality essential oils are micro-fine atomised by the CA-603 ultrasonic humidifier with ioniser and aroma atomiser, creating a fragrance composition tailored to your wishes.

Easy to use: with digital display

The clearly set out digital control panel on the front of the humidifier features five touch keys for easy selection of the desired settings. In addition, the CA-603 humidifier also features a remote control.

Techninė specifikacija

Technical details	
Evaporation technology	Ultrasonic
Water tank capacity	5 L
Suitable for room area up to	45 m²
Suitable for room volume up to	100 m³
Air purification capability	Yes
Automatic mode	No
Timer duration (minimum)	1 h
Timer duration (maximum)	12 h
Humidity sensor	Yes
Air quality sensor(s)	No
Air particle sensor	No
HEPA filter	No
Noise level	25 dB
Relative humidity	45 - 75%
Number of speeds	3
Removable filter	Yes
Humidity output up to	300 g/h
Ionizer	Yes
Humidification capacity	300 ml/h
Operating time	50 h
Filter material	Ceramic

Auto power off	Yes
Child lock	No
Control type	Rotary, Touch
Timer	Yes
Removable water tank	Yes
Safety switch	Yes
Height adjustment	No
Night mode	No
Hygrometer	Yes
Air filter	No
Continuous refill	No
Filtering	Yes
Number of fan speeds	3
Sleep mode	No
Effective area	45 m²
Filter life (max)	3 month(s)
Mist type	Cool
Auto power on function	Yes
Warranty period	2 year(s)
Ion emission	Negative ion
Country of origin	China
Design	
Product colour	Black
Control panel colour	Black
Built-in display	Yes
Power	
Power supply type	AC
AC input voltage	220 - 240 V
AC input frequency	50/60 Hz
Power consumption (typical)	30 W
Weight & dimensions	
Width	150 mm
Depth	335 mm
Height	285 mm
Weight	2.6 kg

Packaging content

Remote control included	Yes
