Efficient dual-device charging from a single outlet
The MediaRange 30W GaN fast charging adapter is designed for efficient and reliable charging of mobile devices via standard electrical outlets. It enables simultaneous charging of up to two devices using one USB-C port and one USB-A port.

Advanced GaN technology for compact design and thermal efficiency
Advanced GaN (Gallium Nitride) technology allows a compact and lightweight design while reducing heat generation during operation. Intelligent integrated chipsets continuously monitor charging power and temperature throughout the charging process to ensure stable and safe charging performance.

Support for modern fast charging standards

The charging adapter supports latest fast charging technologies, enabling compatible devices to be charged efficiently according to their individual power requirements. It is suitable for charging
