Pagrindinės savybės

- ✓ Bluetooth wireless controller for Android and iPhone smartphones; also for Android tablets and iPad
- ✓ Easily mix on your smartphone via Bluetooth Low Energy — connecting is simple and quick!
- ✓ Controls the djay app available free of charge and for unlimited use on Android and iOS (no need to pay for the app: simply close the pop-up window promoting you to upgrade to djay Pro when the app starts up)
- ✓ Controls the djay app available free of charge for Android and iOS
- ✓ Foldable smartphone stand included
- ✓ Monitor tracks: listen to your mix on headphones using the included splitter cable
- ✓ Lets you access essential features for DJing (cue points, samples, effects, loops...)
- ✓ Jog wheels for mixing and scratching, plus faders, knobs and pads: mix like you would on a full-size DJ controller!
- ✓ In the djay app, you can mix using tracks stored on your smartphone or from supported music streaming services (TIDAL and SoundCloud [iOS and Android], Beatport and Beatsource [iOS only]); music streaming service subscriptions are required
- ✓ Enjoy mixing with 4 SoundCloud playlists including 20 great songs, free of charge and without having to log in

Aprašymas

The DJ controller for Android or iOS smartphones

Designed for Algoriddim djay: the DJ app for mixing on a smartphone or tablet.

Easy wireless connection via Bluetooth.

Mix using music streaming services

DJControl Mix lets you mix music tracks stored on your smartphone or tablet, or using one of the music streaming services built into djay: SoundCloud and TIDAL. You can even use Beatport LINK and Beatsource LINK with iOS.
(Music streaming service subscriptions are required)

Smartphone stand included

Works with smartphones and tablets, with or without a cover. Foldable and non-slip.

Monitor tracks using the included DJ splitter cable

To create great mixes, DJs listen to (i.e. monitor) upcoming tracks on their headphones. They make sure that both the outgoing and incoming tracks work well together, and adjust the speed of one of the tracks (if necessary) before starting to transition between them.

Techninė specifikacija
