Aprašymas

Incredible realism. Gorgeous design.

This sophisticated OLED Ambilight TV lets the beauty flow. From the minimalist design and lifelike picture to the surprisingly cinematic sound, you'll be captivated. Ambilight's immersive glow makes everything seem bigger and more...wow!

Immerse yourself in what you love. Ambilight TV

Ambilight TVs are the only TVs with integrated LED lights on the back that react to what you watch, immersing you in a halo of colourful light. This changes everything: your TV seems bigger, and you'll be drawn deeper into your favourite sports, films, music and games.

Bright OLED screen. Lifelike picture in any light

The lifelike picture of this bright OLED TV always looks superb, even if viewed at an angle. Any changes to ambient lighting in your room are automatically compensated for whatever you're watching, blacks look black (not grey) and even the smallest details will leap from the shadows and bright areas. All major HDR formats are supported.

Whatever you watch, a picture so real. P5 engine with AI

Philips P5 processor with AI delivers a picture so real it feels like you could step right into it. A deep-learning AI algorithm processes images in a manner similar to the human brain. No matter what you’re watching, you get lifelike detail and contrast, rich colour, and smooth motion.
