Aprašymas

The ThinkCentre Tiny Mounting Kit is a practical and versatile solution specifically designed to house the Tiny PC securely. Its innovative design allows seamless attachment to the bottom of P/T series monitor arms, providing a clutter-free and space-efficient setup. This mounting kit stands out for its flexibility: it can be used independently or paired with the cable cover for enhanced cable management. Furthermore, its forward-thinking design ensures compatibility with future P/T series monitors, as it does not rely on the arm's specific features. This adaptability makes it an excellent long-term investment for maintaining a tidy and efficient workspace while supporting a range of monitor configurations.
