GIGABYTE's UD850GM PG5 V2 power supply offers reliable performance and advanced features for demanding computing systems. With a total power output of 850 W, this power supply meets various needs while maintaining high efficiency at 90%. It is compliant with the ATX12V 3.1 and EPS12V standards, ensuring compatibility with a wide range of components, making it suitable for gamers and professionals.

The power supply features a fully modular cable management system, simplifying installation and optimizing airflow within the case. With protection features such as overcurrent, overvoltage, undervoltage, and short-circuit protection, users can trust in the safety and longevity of their components. Additionally, the smart fan control and hydraulic bearing cooling fan contribute to a quieter operational environment.
