Aprašymas

The HP EliteBook 8 G1i Next Gen Notebook is a business-focused notebook designed for secure, productive work on the go. It delivers adaptable performance with an Intel Core Ultra 7 processor and Intel AI Boost to help accelerate everyday tasks and intelligent workflows while maintaining responsive multitasking. The spill-resistant keyboard and multi-touch clickpad with gesture support make data entry and navigation comfortable during extended use.

This notebook helps keep users connected with versatile ports including dual USB4/Thunderbolt 4 with DisplayPort 2.1 and Power Delivery, an HDMI port, and a powered USB 3.2 Gen 1 port for peripherals. Dual stereo speakers with discrete amplifiers and Poly Studio support provide clear audio for calls and media. Built-in sensors such as an ambient light sensor, hall sensor, color sensor, and thermal sensor support automatic adjustments and device protection, while features like HP DriveLock, chassis intrusion detection, and FIPS 140-2 Level 2 and Common Criteria EAL4+ compliance help address enterprise security and regulatory needs.

Durability and manageability are part of the design, with MIL-STD-810H testing, BIOS update via network, HP Fast Charge, and ENERGY STAR certification to support reliable, efficient deployment across organizations. The combination of performance, connectivity, and security features positions the HP EliteBook 8 G1i Next Gen Notebook for professional users who need a secure and capable mobile workstation.
