The MSI MAG B850 GAMING PLUS MAX WIFI motherboard offers a blend of performance and connectivity, catering to gamers and builders alike. Featuring a sleek ATX form factor, this motherboard is designed to accommodate the powerful Ryzen 7000/8000/9000 Series processors, ensuring optimal compatibility and efficiency. Supported by an array of high-speed RAM options, it accommodates DDR5 SDRAM up to 8200 MT/s (O.C.), thereby enhancing your system's multitasking capabilities and responsiveness.

With a comprehensive set of high-definition audio channels powered by the Realtek ALC897 codec, immerse yourself in crisp, clear sound whether gaming or streaming. Networking capabilities stand out with 5 Gigabit Ethernet and Wi-Fi 7 technology, ensuring fast Internet speeds for online gaming and downloads. Coupled with innovative features such as EZ M.2 Shield FROZR II and MSI Audio Boost, the MAG B850 GAMING PLUS MAX WIFI is engineered for those seeking reliability and performance in their PC build.
