

GIGABYTE B850 A STEALTH AM5 1xHDMI

Modelis: B850 A STEALTH

Gamintojas: GIGABYTE

Prekės kodas: 560035

338.99€

The GIGABYTE AORUS B850 STEALTH motherboard supports Intel Core Ultra processors, making it a versatile choice for gaming and productivity tasks. With an ATX form factor and a robust AMD B850 chipset, this motherboard accommodates the demands of modern applications and high-speed operations.

Featuring multiple connectivity options and impressive audio capabilities, the B850 STEALTH ensures an immersive user experience. It provides multiple M.2 slots for efficient storage solutions, while its extensive USB ports - including USB-C 3.2 Gen 2 - offer data transfer rates. Enhanced thermal management and reliability are upheld by hardware monitoring abilities and the use of durable materials, contributing to its overall longevity and performance stability.
