

GIGABYTE B840M D3HP WF6E AM5 4xDDR5 4xSATA 2xM.2

Modelis: B840M D3HP WF6E

Gamintojas: GIGABYTE

Prekės kodas: 560043

140.99€

The GIGABYTE B840M D3HP WIFI6E motherboard offers robust performance and impressive connectivity options for gaming and productivity. Designed with support for Ryzen 7000/8000/9000 Series processors, it maximizes your system's potential with memory support, allowing speeds of up to 8000 MT/s (O.C.). The micro ATX form factor fits seamlessly into most cases while providing multiple expansion slots for upgrading and customizing your build.

This motherboard is equipped with advanced networking features, including MediaTek Wi-Fi 6E and Bluetooth 5.3, ensuring fast and reliable connections. High-definition audio capabilities enhance the experience, along with multiple USB ports for peripheral connectivity. Whether for gaming or content creation, the GIGABYTE B840M D3HP WIFI6E serves as a solid foundation for a powerful and efficient workhorse.
