

GIGABYTE B760 G X WF6E GEN5 LGA1700 4xDDR5 ATX MB

Modelis: B760 G X WF6E GEN5

Gamintojas: GIGABYTE

EAN: 4719331871673

Prekės kodas: 560063

172.99€

The GIGABYTE B760 GAMING X WIFI6E GEN5 motherboard is designed to meet the demands of gamers and tech enthusiasts. With support for Intel's 12th to 14th Generation processors and DDR5 SDRAM memory technology, it delivers performance and speed. The detailed hardware monitoring features ensure optimal system management, allowing you to keep track of temperatures and fan speeds while pushing your system to its limits.

Equipped with multiple expansion slots including PCIe 5.0, abundant USB ports including USB-C, and advanced audio capabilities with high definition audio, this motherboard is tailored for those who require flexibility and functionality. The built-in M.2 Thermal Guard provides better thermal performance for your drives, enhancing system stability. Whether for gaming, content creation, or general use, this motherboard provides a strong foundation for building a powerful and reliable PC.
