The Logitech G321 headset is designed for versatile use with portable electronics and computers. It features an adjustable headband for comfort and flexibility during extended use. The omnidirectional boom microphone ensures clear audio capture for communication or gaming, while the flip-to-mute function provides instant privacy when needed.

Equipped with Bluetooth 5.2 and LIGHTSPEED technology, this wireless headset allows for seamless connectivity with a maximum operating distance of 10 m. The 40 mm diaphragm and stereo sound output deliver a rich auditory experience, suitable for various applications from gaming to enjoying music. Rechargeable and efficient, the G321 headset is a dependable choice for anyone looking to enhance their auditory experience.
