199.99€

The ASUS B850 MAX GAMING WIFI motherboard is designed to meet the demands of modern computing with advanced connectivity and performance features. Built on the ATX form factor and powered by the AMD B850 chipset, this motherboard supports Ryzen 7000 through 9000 Series processors while offering enhanced memory capabilities with up to 9000 MT/s speeds. With four DIMM slots supporting both ECC and non-ECC RAM, it enables a flexible approach to memory configuration, making it an ideal choice for gaming enthusiasts and professionals.
