901.99€

The Synology HAT3320-20T is a reliable internal hard drive designed to meet the demanding storage needs of users. With a capacity of 20 TB, this drive operates at a spindle speed of 7200 rpm, ensuring efficient data processing and access. The 3.5" form factor makes it a suitable choice for various systems, allowing for seamless installation and integration. Engineered for 24x7 operation, this hard drive can handle continuous workloads, making it ideal for servers and storage solutions.
