The MSI PRO A850PL PCIE5 is a power supply designed to meet the needs of demanding PC builds and servers. With a power output of 850 watts and compliance with ATX12V 3.1 and EPS12V standards, this product offers stable voltage delivery across multiple channels. Its 80 PLUS Platinum certification ensures high efficiency up to 92%, reducing energy waste and optimizing system performance.

Featuring fully modular cable management, the MSI PRO A850PL allows for customized setups with a variety of detachable cables. This includes a 24-pin ATX power cable, multiple 8-pin EPS12V cables, and connectors for PCI Express, SATA, and more to keep the system organized and clutter-free. Equipped with a 120 mm hydraulic bearing cooling fan, the power supply maintains low temperatures while efficiently operating under load, ensuring longevity and reliability.
