

Power Bank EcoFlow RAPID Pro 300W, 140W-Kabel

Modelis: EFRAPIDPRO27K-EU

Gamintojas: ECOFLOW

EAN: 4895251641210

Prekės kodas: 560325

188.99€

EcoFlow RAPID Pro 300W,140W-Cable Power Bank

The EcoFlow RAPID Pro combines a large capacity of 27,650mAh with a lightweight and compact design that will fit even in the side pocket of a backpack. This makes it an ideal travel companion - you can also take it on a plane without any problems. It also stands out for its impressive power output - up to 140 watts on a single USB-C (Universal Serial Bus Type-C, a universal connector for data and power) port, and up to 300 watts in total. It's also equipped with three USB-C ports and one USB-C cable, allowing you to charge four devices simultaneously. No need to limit yourself!

Large capacity of 27,650mAh

Forget about having to charge your powerbank after every use. The RAPID Pro offers an impressive capacity of 27,650mAh (99.54Wh), allowing you to power your chosen devices for a long time! What

does this mean in practice? With the powerbank, for example, you can charge an iPhone 16 about 4.5 times, and a Steam Deck - about 1.4 times.

Charge several devices simultaneously

The RAPID Pro has a built-in 60cm USB-C cable. This allows you to charge your phone or headphones without having to carry extra cables! In addition, the powerbank is equipped with three USB-C ports. Charge several devices at once and forget about limitations!

Power you can rely on

One of the powerbank's USB-C ports offers an output power of up to 140W. So you can charge your phone, tablet or even laptop in no time! On the other hand, the total maximum output power of the RAPID Pro is as high as 300W. That's enough to efficiently prepare your necessary devices for work whenever you need them.

Fast charging

The powerbank charges at record speed - using the compatible RAPID Pro 320W docking station (on separate sale) you'll restore it to up to 80% power in just about 20 minutes! However, that's not the end of the possibilities. Using two ports, you'll get 280 watts and reach the same level in about 26 minutes, and when charging with one port 140 watts, it will take about 40 minutes.

State-of-the-art X-VELO technology

The X-VELO batteries in the RAPID Pro use a multi-pole solution that minimizes energy loss and optimizes temperature control, resulting in excellent performance. In addition, the use of silicon-carbon technology has made it possible to increase energy density while keeping the device compact. The powerbank can also easily operate in freezing temperatures - even down to -20°C. It will be perfect for a winter trip to the mountains!

Advanced protection with X-Guard and X-Core 3.0

Thanks to X-Guard technology, the RAPID Pro powerbank ensures safe use. The BMS (Battery Management System) and EMS (Energy Management System) effectively take care of the battery's condition, and smart sensors check the temperature up to 10 million times a day, providing full protection against overheating and other hazards.

LCD screen with customization option

The RAPID Pro is equipped with an easy-to-read LCD (Liquid Crystal Display) screen that shows battery status, temperature and power, among other things. You can also customize its appearance to your preferences yourself!

Full control through the EcoFlow app

With the EcoFlow app, you can monitor power flow in real time, activate battery life optimization mode or change selected settings. With just a few clicks, you can adjust the performance of the powerbank to your expectations!

Included

- Powerbank
- Flannel bag

General

Manufacturer	EcoFlow
Model	EFRAPIDPRO27K-EU
Total cell capacity	27650 mAh (99.54 Wh)
Battery capacity	16658 mAh (25.2 V)
Dimensions	166 x 55 x 58 mm
Weight	699,4 g
Color	Silver

Cable length 60 cm

Rechargeable battery

Cell chemistry NCM

Lifetime Approx. 300 cycles (up to 80% capacity)

Battery type 104161

Number of cells 7S1P

Outputs

Total number of outputs 3 USB-C ports + USB-C cable, total 300 watts.

Output power of the built-in USB-C cable Two-way fast charging 140 watts

USB-C output Cable/USB-C1: 140 watts; USB-C2/C3: 65 watts;

Inputs

Cable/USB-C1: 140 W;

Pogo Pin: 320 W;

USB-C charging Total USB input power: 280 W;

Pogo Pin + Total USB input power: 320 W;

0% to 80% in about 20 min
