Darkflash DK431 Mesh computer case (black) + 4 ARGB fans

With the help of the Darkflash DK431 Mesh computer case, you can easily create a hardware configuration on which you will enjoy gaming or working. The product is equipped with various ports such as USB 3.0 and 2.0, and high-quality materials were used in its construction. The transparent, opening side panel will not only make it easier to swap out components, but also allow you to achieve interesting visual effects, for example, in combination with RGB fans.

Stylish and functional

The case's side panel is equipped with practical hinges, so you can easily open it to replace components or clean your hardware. Tempered glass was used for its construction, which allows you to expose the components placed inside - for example, those with colorful backlighting. Its opening is

facilitated by a special silk handle. Moreover, the front panel with a mesh structure and PVC filter gives the case an even more interesting industrial character.

Optimal cooling system

Play dynamic games and be sure that your computer will not overheat. The DK431 allows the installation of up to 12 120 mm fans or 8 140 mm fans. It also features vents on its side panel for even better heat dissipation. What's more, you can install 360 mm water cooling in the top or front of the case. Note: it is not possible to install fans on the right side and water cooling on the front of the case at the same time.

More expandability

The case allows you to install up to 4 hard drives, so you don't have to worry about running out of space for your photos or videos. It's ideal for graphic designers and photographers, among others. It also allows you to mount a 400 mm VGA card and 160 mm high CPU cooling. The carefully thought-out design and practical cable grommet make sure you can optimize the space. The DK431 also has a removable dust filter to help you keep your components in good condition.

An array of useful ports

Create a hardware configuration that you'll be comfortable using. The DK431 Mesh case is equipped with a number of useful ports and buttons that will make your work much easier. Among other things, you have a microphone input and headphone/speaker output, 2 USB 2.0 ports, as well as Reset and Power buttons. There is also a USB 3.0 port that allows you to quickly charge connected devices and transfer files instantly.

Included

- computer case
- CL6 ARGB x4 fans
