

Robot vacuum cleaner Dreame Bot L10 Pro (white)

Modelis: RLS5L

Gamintojas: DREAME

EAN: 6973734686540

Prekės kodas: 560386

134.99€

Dreame Bot L10 Pro robot vacuum cleaner

The Dreame Bot L10 Pro is an extremely powerful device that not only vacuums your floors, but also washes them. The slim shape gives you unlimited possibilities to reach even hard to reach places, and the modern obstacle detection technology minimizes the risk of disturbing the device. The robot has a 270ml water tank and its working time reaches 150 min, which translates into the possibility of cleaning up to 250m² of surface.

As much as 4000Pa!

What distinguishes L10 Pro from other models is a powerful suction force of 4000Pa, which means that the robot can provide power similar to, and in some cases exceeding the power of standard vacuum cleaners. This ensures that not even the smallest dirt, dust, or hair will be trapped on the

floor. That's more than you expect from a cleaning robot!

Clever design

Dreame Bot L10 Pro is a 2-in-1 device. The robot easily manages to keep your floor free of dirt with its ability to vacuum and mop at the same time. The 270ml water tank is enough to clean a large area and the dust container holds up to 570ml of dirt. Moreover, the 5-step noise reduction makes the robot work almost imperceptibly.

Advanced navigation technology

The L10 Pro adapts cleaning routes individually based on a map of each room. Using LDS laser navigation and SLAM algorithms, the robot navigates a zig-zag route without missing a centimeter, making vacuuming more efficient. A dedicated app allows you to control the device remotely and clean even more thoroughly.

Detects obstacles

Thanks to High Precision 3D technology, the L10 Pro has real-time response. It detects obstacles much better even in a dimly lit room. It won't collide with furniture or run into toys stacked on the floor. What's more, the L10 Pro overcomes obstacles up to a height of 20mm, so it will easily drive over carpet or cross a threshold.

Powerful cleaning system

The robot offers a 4-level cleaning system. The side brush removes dust from hard-to-reach places such as corners, while the main brush is responsible for picking up crumbs or hair. It will also keep hair from getting tangled. With a suction power of 4000Pa, the L10 Pro easily absorbs large debris, and the dual-layer E11 filter captures even 0.3-micron particles. The device will free pet owners from hair and take care of a bacteria-free and kid-friendly home.

Long operating time

The 5200mAh battery translates into up to 150 min of run time on a single charge. The robot is suitable even for large homeowners and is capable of cleaning up to 250m² of space. Need even more? The device from Dreame automatically returns to the charging station when the charge level is too low. What's more, it calculates the amount of energy it needs to finish the job and replenishes it with exactly that much. Once it's recharged, it continues working from where it left off, saving you time.

Personalize the robot

Using the app, you can create cleaning zones, for example, turning on spot cleaning, during which the L10 Pro will clean the areas you designate, or zone cleaning, selecting a larger space to clean. In addition, it is possible to create a virtual wall so that the vacuum cleaner will not clean in your designated areas.

Intelligent cleaning with L10 Pro

The vacuum cleaner is equipped with sensors to protect you from unwanted events. It is slim enough to drive under furniture or a bed, but will only do so if the recess is not too low. It has fall sensors so it won't fall down the stairs and the edge cleaning feature will make sure every inch of your home is clean. The device will not only take care of you, but it also does not require unnecessary attention!

Voice control

From now on, vacuuming will be fun! The L10 Pro offers voice control and is compatible with the Amazon Alexa assistant. All you have to do is say " Alexa, turn on the vacuum cleaner" and you're done. Also, the product from Dreame connects to other household appliances through the Mi Home app.

In the box

- Dreame Bot L10 Pro
- Charging station
- Cleaning brush
- Power cable
