Dreame L10 Prime cleaning robot

Want to make cleaning more pleasant? With Dreame L10 Prime, cleaning your home will be something enjoyable. This cleaning robot will help you vacuum as well as mop floors and carpets equally, so you can save time. It is distinguished by a suction power of 4000 Pa, which allows you to thoroughly get rid of dirt from various types of surfaces. Modern LDS technology is responsible for accurate scanning of rooms, and what's more, the durable battery (5200 mAh) will allow you to work for up to 210 minutes on a single charge. In addition, all operation will be facilitated by a dedicated app.

High suction power

What sets the Dreame L10 Prime apart is its high suction power of 4,000 Pa, which will always keep the floors in your home clean. It will effectively remove hair, dust, dirt and debris from areas such as carpets, hard floors and even inaccessible corners. What's more, it will also prevent hair tangles.

This guarantees a thorough cleaning, and you can enjoy a clean and well-maintained floor.

Built-in navigation

The Dreame robot, for greater convenience of use, is equipped with a state-of-the-art LDS navigation system. It is responsible for precise mapping, scanning and route planning. It also generates a 3D map of the entire house. What's more, the L10 Prime will be ideal for multi-story homes, as it is equipped with sensors to detect falls. This makes the L10 Prime provide you with an extraordinary cleaning of your entire home.

Long operating time

The Dreame L10 Prime is equipped with a large 5200 mAh battery, giving it a maximum run time of 210 minutes when vacuuming or mopping in silent mode, or 150 minutes when vacuuming and mopping simultaneously in standard mode. This makes this cleaning robot perfect for homes with large areas.

Mopping function

The Dreame L10 Prime cleaning robot will not only help you with daily vacuuming, but also mop your floors. It is distinguished by its large work surface and active pressure on the floor, so your home will always shine clean. What's more, you'll be helped in getting rid of stubborn dirt by the mopping pad you'll find in the set. In addition, they have the ability to automatically lift up to max. 7 mm, so the robot will easily overcome such obstacles as carpets or thresholds.

Carpet cleaning

The L10 Prime is distinguished by ultrasonic carpet detection, so it automatically increases the suction power for even better and more efficient cleaning. What's more, if you want to protect your carpets from getting wet while the robot is mopping, you can set it to avoid them.

Automatic cleaning

You don't have to worry about the L10 Prime leaving dirty marks after mopping. The Dreame robot automatically returns to the base station during cleaning to wash its mopping pads. What's more, when you're done, the mops are washed and dried again at the base station. This gives you the assurance that your floors will always be shiny and clean.
