Ottocast Play2Video Plus Carplay/Android Auto wireless adapter

Ottocast Play2Video Plus is a versatile adapter that combines CarPlay and Android Auto features with the multimedia capabilities of a smart TV. It allows you to use your phone wirelessly in your car and play videos from popular platforms such as Netflix, YouTube, Prime Video, and IPTV. With a fast quad-core processor, Bluetooth technology, dual-band Wi-Fi, and Android 12, it delivers smooth performance, a stable connection, and intuitive operation. It's the perfect solution for drivers who expect the highest level of comfort and entertainment!

Wireless use of CarPlay and Android Auto

The device allows wireless use of Apple CarPlay and Android Auto, eliminating the need for cables. It works with iPhones running iOS 10.0 and smartphones running Android 11.0 and above, ensuring full functionality of multimedia systems. This allows you to conveniently use navigation, make calls, listen to music, and operate apps by voice – without touching your phone and without distracting you from the road.

Full integration with car control systems

Ottocast Play2Video Plus is designed to work with your vehicle's factory controls. The device supports commands from the steering wheel and knobs, and is also compatible with voice assistants such as Siri. This allows you to manage your music, calls, and apps safely, conveniently, and intuitively—without having to reach for your phone.

Performance and smooth operation thanks to a quad-core processor

The adapter is equipped with a quad-core H618 processor, which ensures lightning-fast response and smooth operation. Combined with 4+32 GB of memory, it offers fast startup, efficient app handling, and smooth multimedia playback. The device runs on Android 12, which allows for stable and responsive operation.

Entertainment at your fingertips - built-in streaming apps

Ottocast Play2Video Plus is more than just an adapter – it's a full-fledged entertainment center in your car. The device has built-in Netflix, YouTube, Prime Video, and IPTV apps, so you can enjoy your favorite movies, series, and shows without having to connect your phone. It's the perfect solution for stops, long trips, or family outings!

Simple installation and quick setup

Installing the adapter is extremely simple and requires no technical knowledge. Just plug the device into a USB port and connect to a Wi-Fi network or hotspot to enjoy access to all features. It's a convenient plug-and-play solution that saves time and eliminates unnecessary settings.

Dual connectivity and maximum stability

The adapter uses Bluetooth and dual-band Wi-Fi technology to provide a fast, stable connection to your phone and multimedia system. This ensures that both audio and video transmission is smooth, without interference or delays. This guarantees reliable operation in all conditions.

Offline playback and entertainment without coverage

With its large memory capacity (4+32 GB), the adapter allows you to save content and play it offline. It's the perfect solution for traveling to places outside of network coverage – you can listen to music or watch movies without interruptions or buffering, regardless of your location.

Compact, elegant, and durable design

The adapter stands out with its refined design and solid construction. The IML-finished casing guarantees durability, scratch resistance, and a modern look that fits perfectly into any car interior. Thanks to its thoughtful design and compact dimensions, the device fits perfectly into the cockpit space, and the flexible USB cable facilitates installation and prevents excessive strain on the connector, ensuring a long service life for the equipment.
