193.00€

Ottocast OttoAibox E2 CarPlay/Android wireless car adapter

Ottocast E2 turns your car screen into an Android 13 media center. The device allows you to use wireless CarPlay and Android Auto without having to connect your phone every time. In addition, it offers access to Google apps, navigation, messaging and even streaming - all directly on your car screen. Thanks to its octa-core processor, built-in 4G network (CloudSIM) and split-screen capability, the device runs fast, smooth and efficiently handles multiple tasks simultaneously.

The full power of Android in your car

The Ottocast E2 runs on Android 13, giving your car screen the capabilities known from modern smartphones. The device allows you to download and use apps such as YouTube, Spotify, Google

Maps and Netflix directly from the car interface, without having to reach for your phone.

Ready to go in just 12 seconds

Thanks to its powerful octa-core processor, the adapter boots up quickly and runs smoothly, even when using several apps simultaneously. Switching between functions, playing music and navigating are all done without stuttering or lagging, resulting in a more comfortable driving experience.

No cables

The Ottocast E2 allows you to use CarPlay and Android Auto without connecting your phone with a cable. After initial setup, the device connects automatically, offering one-click access to contacts, messages and apps - all wirelessly.

Constant network access with built-in 4G

With its built-in CloudSIM module, the Ottocast E2 can access the Internet without a physical SIM card or the need to share WiFi from your phone. The device connects to the network on its own, giving you access to online services on the go, without logging in or configuration.

Included

- wireless car adapter
