DarkFlash HM1 computer case

DarkFlash HM1 is a midi tower computer case that supports ATX, M-ATX and ITX format motherboards, while offering up to seven 120 mm fan slots and the ability to mount up to 360 mm of water cooling on top of the case. The internal space allows for the installation of graphics cards up to 380 mm in length and CPU coolers up to 175 mm in height. A side panel of curved tempered glass with anti-reflective coating provides a clear view of components, while the modular design and hidden cable routing system facilitate neat installation. The front features high-speed USB 3.0 and USB-C connectors, which translates into convenient support for external devices.

Efficient ventilation and support for water cooling

The HM1 chassis supports the installation of up to seven 120mm fans, which translates into efficient cooling even under heavy load. Three fans each can be mounted at the front and bottom, and one (120 or 140 mm) at the rear. The top panel supports water cooling up to 360 mm. This configuration keeps the temperature inside the case stable and minimizes noise.

Thoughtful component layout

The HM1 has been designed to ensure maximum compatibility and easy installation of components. It supports ATX, M-ATX and ITX format motherboards. Inside, space is provided for three HDDs, mounted in the bottom compartment. The motherboard is installed at the rear, allowing for more orderly cable routing and better airflow.

Built-in ports

On the front panel, the user has two USB 3.0 ports, a USB-C connector, two audio connectors and a power button. Such a setup makes it easy to quickly connect external devices and operate the hardware.

Refined design

The case features a one-piece curved tempered glass panel with high transparency. As a result, the computer's interior remains clearly visible - the manufacturer used nano-AR coating, which reduces reflections to just 3%. The magnetic top panel can be easily removed, making it easy to install fans and clean the case. Modular cable design and a hidden tool compartment make assembling the computer not only convenient, but also aesthetically pleasing.

Manufacturer	Darkflash
Model	HM1
Housing type	Midi Tower
Side panel	Tempered glass
Motherboard standard	ATX, M-ATX, ITX
Slots for internal drives	3 × HDD
Expansion card slots	7 × PCIe
Max graphics card length	380 mm
Max CPU cooling height	175 mm

Max number of fans	7 × 120 mm
	Top: 3 × 120 mm
Fan mounting options	Rear: 1 × 120 mm or 1 × 140 mm
	Bottom: 3 × 120 mm
Water cooling mounting options	Top: up to 360 mm
Number of fans installed	no fans installed
Type of fans	PWM 120 mm
	Power button
Buttons and controls	Connectors: 2 × USB 3.0; 1 × USB-C; 2 × Audio (headphones and microphone)
Color	Black and white
Height	450 mm
Width	240 mm
Depth	430 mm
Weight	approx. 7.8 kg
