EAN: 4897143171782

Prekės kodas: 560476

82.99€

Freewell Neutral Density ND32 Filter for OSMO 360

Freewell ND32 is a filter dedicated to the DJI Osmo 360 camera, designed for use in bright sunlight. It reduces the amount of light reaching the lens by up to 5 stops, which helps to avoid overexposure and preserve details in bright areas of the image. This gives you more control over exposure, and your recordings look natural without the need for heavy post-production intervention. Longer exposure times allow for smooth motion effects, making your shots more cinematic and professional.

Balanced contrast and clear image

The ND32 filter helps to even out the differences between light and dark areas of the frame, making the image more consistent and clear. It is particularly useful in situations with a wide tonal range, such as outdoor photography, where intense light can disrupt the balance of the scene. Freewell has
