Aprašymas

BoboVR CD3 Charging Base

The BoboVR CD3 is a compact charging base designed for Meta Quest 3 and 3S controllers, providing convenient, wireless power for everyday use. It uses a magnetic "put down and charge" system, offers long battery life on a single charge, clear LED indicators, and effective heat dissipation for stable and safe operation. The whole thing is complemented by a minimalist, space-saving design and a set of dedicated accessories that keep the controllers always ready to play.

Wireless and fast charging

BoboVR CD3 is designed specifically for Meta Quest 3 and Meta Quest 3S controllers. Simply place the controllers on the base to start charging immediately – no cables, no plugs, and no interruption to your daily routine. Magnetic technology ensures precise positioning and a stable connection every time you use it.

Over 30 hours of gameplay on a single charge

The set includes dedicated lithium batteries and compatible G3 controller grips, which also serve as a wireless charging interface. A full charge takes about 2.5 hours, and one charge cycle is enough for over 30 hours of continuous play (actual operating time depends on intensity of use). The controllers are always ready when you want to enter the world of VR.

Full control of the charging status

Integrated LEDs clearly indicate the current operating status of the device. An orange light means that charging is in progress, a white light means that the controller is fully charged, and no light means that there is no connection. This lets you know immediately whether the equipment is ready for use.

Effective heat dissipation

An advanced heat dissipation system ensures reliable and safe charging, even with daily, intensive use. This solution is designed for long battery life and stable operation of the entire station.

Thoughtful design

The slim, space-saving design takes up little space and fits perfectly with Quest goggles and other BoboVR accessories. The base is designed as a natural complement to the VR station – aesthetic, functional, and practical for everyday use. BoboVR CD3 is not just a docking station. It is a complete wireless power solution, including a charging base, dedicated G3 controller holders compatible with Meta Quest 3 / 3S, and special rechargeable lithium batteries.

Included in the set

- charging base
- controller battery
- holder security strap
- controller holder
- controller battery cover
- charging cable
- user manual

Manufacturer	BoboVR
Model	CD3
Compatibility	Meta Quest 3, Meta Quest 3S
Charging technology	Wireless magnetic charging (drop-and-charge)
Full charging time	Approx. 2.5 hours
Operating time on a single charge	Up to 30+ hours
Batteries	Rechargeable lithium batteries (included)
LED indicator	Orange – charging, white – fully charged, no light – no connection
