Aprašymas

BoboVR PD100 Charging Base - Combo Set

The BoboVR PD100 Combo is a compact 2-in-1 charging base and power bank designed to work with B100 batteries. It offers fast, bidirectional USB-C PD charging up to 30W, a set of practical ports with a built-in cable, and a clear display with simple one-button control. Magnetic attachment, mobile design, and full compatibility with the removable battery ecosystem make the PD100 ideal for both VR sessions and everyday use at home and on the go.

Fast charging

The PD100 offers bidirectional fast charging up to 30W (input/output) with support for PD3.1/PPS, QC, UFCS, AFC, FCP, SCP, and more. With pass-through, you can charge the battery and power your devices at the same time. The PD100 allows you to recharge the B100 battery to 80% in about an hour (mains charger not included). It's the perfect solution between VR sessions or before you leave home.

Full set of connectors with no extra cables

On board you'll find a USB-C port, a USB-A port, and an integrated USB-C cable for fast charging when every second counts. A single port provides up to 30W, and when charging multiple devices, the total power is up to 15W. No more carrying spare cables!

Clear display and one-button control

The built-in display shows the real-time charge level (%) and current power (W). With a single button, you can change the view, hold to stop the output, and double-click to activate low-current mode. Automatic sleep mode and a complete set of safety features ensure the safety of your equipment.

Ready to travel and work without downtime

Connect the PD100 to the BD3 (3-slot) dock and several B100 batteries to always have at least one fully charged. When you replace the battery, the PD100 serves as a power bank — without interruption, at home or on the go. The compact design and magnetic latch make it the perfect solution that fits in any pocket. The device is compatible with the BoboVR B100 battery.

Included

- charging station
- B100 battery
- charging cable
