EMEET OfficeCore M0 Plus Conference Speaker

The EMEET OfficeCore M0 Plus is a conference speaker that combines the advanced AI VoiceIA® 4.2 algorithm, full-duplex support, 360-degree voice pickup via a 4-microphone array, and flexible connectivity via USB-C and Bluetooth 5.0. The device effectively filters out ambient noise, reduces echo, and allows for natural conversations without mutual interference, while covering the entire environment with sound thanks to 4 omnidirectional microphones and 3W of power. Daisy Chain support allows you to connect two compatible devices to increase the sound pickup range and expand meetings to up to 16 people, while broad compatibility with popular operating systems and video conferencing platforms makes the device easy to adapt to various work scenarios.

Clear voice without distracting background noise

The most important advantage of the OfficeCore M0 Plus is the quality of communication, which directly impacts the comfort of online meetings. The VoicelA® 4.2 algorithm uses artificial intelligence to reduce ambient noise and eliminate echo, ensuring that during a call, the human voice is heard more clearly, while sounds like keyboard typing or running air conditioning are minimized. Combined with Full Duplex technology, the device allows you to speak and listen simultaneously, so the conversation sounds smooth and natural.

Full sound coverage in small and medium-sized rooms

The device is equipped with a 4-microphone Digital MEMS omnidirectional array that captures voices from every direction within a 360° range. With a microphone frequency response of 100 Hz – 10 kHz and a voice pickup range of up to approximately 3 meters under standard conditions, participants do not need to sit right next to the device to be heard clearly. The speaker, with a peak sound pressure level of 89 dB at 0.5 m and a frequency response of 20 Hz – 20 kHz (± 3 dB), evenly distributes sound throughout the room, making it easier to conduct meetings in a home office or a medium-sized conference room.

Flexible connectivity for various devices and situations

The EMEET OfficeCore M0 Plus offers great flexibility in everyday use—it can operate both wired and wirelessly. It comes with a 1-meter USB-C cable and Bluetooth 5.0 connectivity, so you can easily adapt the connection method to your workspace and equipment. The Bluetooth range is up to 10 m, giving you greater freedom to place the device on a conference table or desk. Additionally, the device supports A2DP, AVRCP, and HFR profiles as well as the SBC codec and can connect to one wired device and one via Bluetooth.

Flexibility for meetings without replacing the entire system

The M0 Plus model works well when your team grows and needs change. The Daisy Chain feature allows you to connect two devices to expand the voice pickup area and host meetings for up to 16 people, while a single device is recommended for groups of up to 8 participants. This is a practical solution for companies that want to start with a single compact conference speaker and later expand the setup without immediately investing in a large, stationary conference room system.

Mobility and convenience in everyday work

The compact housing, measuring 116 x 116 x 40 mm and weighing 250 g, makes it easy to take the device to another room, office, hotel, or workplace. The built-in 2600 mAh lithium-ion battery provides over 10 hours of talk time on a single charge, so the device can operate throughout the entire workday without constantly needing to plug in.

Full compatibility

The device works with the EMEETLINK app, is compatible with Windows 7, 8, 8.1, 10, and 11, as well as Mac OS 10.10 or later, and integrates with popular online meeting platforms such as Zoom, Microsoft Teams, Webex, Skype, and Slack. This makes it well-suited for both remote work and daily team meetings.

Included in the set:

- Conference speaker
- USB-C cable
- User manual

Manufacturer	EMEET
Model	E1103
Microphone array	4-microphone omnidirectional array
Microphone type	Digital MEMS
Microphone frequency response	100 Hz - 10 kHz
Voice pickup range	Up to approx. 4.5 m
Microphone technologies	360° voice pickup, Full Duplex, Noise Cancellation, Voice Enhancement
Peak audio output power	89 dB @ 0.5 m
Maximum input power	3 W

Frequency response	20 Hz - 20 kHz (± 3 dB)
Signal-to-noise ratio (SNR)	> 75 dB
Connection method	USB-C cable, Bluetooth
Cable type	USB-C to USB-A, 1 m
Bluetooth version	Bluetooth 5.0
Bluetooth range	Up to 10 m
Number of supported devices	1 via cable, 1 via Bluetooth
Supported Bluetooth profiles	A2DP, AVRCP, HFR profiles, SBC codec
Battery capacity	2600 mAh
Battery type	Lithium-ion
Number of users supported	Up to 8 people
Daisy Chain	Up to 16 people
Recommended use	Workspace and home office, huddle rooms, medium-sized rooms, work from anywhere
Supported software	EMEETLINK
Compatibility	Zoom, Microsoft Teams, Webex, Skype, etc.
Operating system	Windows 7, 8, 8.1, 10, 11, Mac OS 10.10 or later
Dimensions	116 x 116 x 40 mm
Weight	250 g
