Anycubic Build Plate for the Photon Mono M7 Max

The Anycubic Build Plate for the Photon Mono M7 Max is a solidly constructed black component that is fully compatible with this printer model, ensuring stable and trouble-free operation, and its weight of approximately 2600 g and package dimensions of 400 × 255 × 190 mm ensure adequate rigidity and user comfort; the specially treated work surface improves the adhesion of the first print layers, which means models adhere better to the platform and are less likely to peel off during operation, directly impacting print quality and consistency, while the durable metal construction withstands regular contact with resin and cleaning, ensuring the platform retains its properties for a long time.

Manufacturer	Ancubic
Compatibility	Ancubic Photon Mono M7 Max
Type	laser-etched build plate
Color	black
Weight	approx. 2600 g

Package dimensions 400 × 255 × 190 mm

Gross weight: 2600, Net weight: 2598, Box length: 40,00, Box width: 26,00, Box height: 19,00
