

Anycubic Resin Tank for the Photon Mono M7 Pro

Modelis: S020233

Gamintojas: ANYCUBIC

EAN: 5905156103955

Prekės kodas: 560638

112.99€

Anycubic Resin Tank for the Photon Mono M7 Pro

The Anycubic Resin Tank for the Photon Mono M7 Pro is designed for use with a large build volume and high-precision printing, featuring an integrated Smart Heating Resin system that stabilizes the temperature of the resin and improves layer-by-layer polymerization performance. The factory-installed ACF film features a lower adhesion coefficient and better peel strength compared to standard FEP films, resulting in less stress on the Z-axis and a smoother layer separation process. The tank's dimensions, tailored to the device's build platform, ensure even resin distribution and compatibility with rapid printing systems, which in turn translates to process stability and print repeatability.

Manufacturer Anycubic

Compatibility Photon Mono M7 Pro

Heating system Smart Heating Resin

Film type ACF (Advanced Composite Film)

Dimensions approx. 353 × 323 × 180 mm

Gross weight: 2280, Net weight: 2278, Box length: 36,00, Box width: 33,00, Box height: 18,00
