66.99€

Sonoff MINI-RBS WiFi Smart Mini Blind Switch (4 pcs).

The Sonoff MINI-RBS is a compact WiFi smart switch that changes the approach to curtain and blind automation. Matter compatibility, precise percentage control, time schedules, local control and voice operation - all in a miniature device that fits easily into a standard installation box. Ideal for anyone looking for flexibility, convenience and durability without having to replace existing systems.

Compact dimensions, maximum flexibility

Thanks to its clever design, the Sonoff MINI-RBS will fit into European installation boxes with a minimum depth of 60 mm. Its compact size enables discreet installation without modifying existing infrastructure. Seamless integration with 4-wire or 5-wire cables (with neutral, opening and closing line and ground) ensures wide compatibility with the most popular roller shutter motors.

Matter compatibility

MINI-RBS supports the Matter standard, which means full compatibility with major smart home platforms such as Apple Home, Google Home, Amazon Alexa, Home Assistant and Samsung SmartThings. It's a future-proof solution that avoids the need to replace hardware when expanding the system, making it an excellent investment for years to come.

Precise control

The device allows you to set the exact percentage opening of the blinds - perfectly adjusting the amount of light entering the home to suit the needs of the occupants. Whether you want to reduce glare on the screen, create an intimate atmosphere in the evening, or take care of plant illumination, the MINI-RBS offers full one-click control.

Smart schedules and automatic calibration

Set schedules for opening and closing blinds according to the time of day, the rhythm of your household members or weather conditions. The "Extra Time" function allows precise calibration of the motor's operating time, which eliminates errors due to long-term use and guarantees accurate positioning - something that many traditional solutions lack.

Full control, even without the Internet

The Sonoff MINI-RBS can be controlled via the eWeLink app, as well as locally - without the need to connect to a Wi-Fi network. When paired with a Sonoff scene controller, you can control your blinds remotely, guaranteeing maximum convenience and precision, even in the absence of internet. Open, close, stop or set the exact level with one button. You make the rules!

A secure home in any situation

Manage your lighting and privacy from anywhere in the world. Whether you're on vacation, working remotely or putting the kids to bed, MINI-RBS keeps your home comfortable and safe.
