

## iSteady MT3 Gimbal

Modelis: iSMT3

Gamintojas: HOHEM

EAN: 6971071554867

Prekės kodas: 560746

# 376.00€

### Hohem iSteady MT3 - a lightweight gimbal with AI tracking for everyday filming

The Hohem iSteady MT3 is a compact gimbal that combines image stabilization with AI features, making it easier to film on the go and work solo. Its lighter design and broad compatibility make it ideal for vlogs, travel videos, and social media content. It's the perfect solution for those who want to record smoothly without complicated setup.

### Stabilization and Mobility - Convenient Recording on the Go

The lightweight design (approx. 765 g) makes the gimbal comfortable to use even for extended periods. At the same time, stabilization ensures smooth footage while walking or changing the frame. This makes recordings look more natural and eliminates the need for additional stabilization editing.

### AI Tracking - automatic subject tracking

The built-in AI camera tracks the subject within the frame. The gimbal automatically keeps the person centered in the shot, making it easier to record without an operator. In practice, this means fewer edits and greater freedom when recording vlogs or live content.

## **Versatility**

The iSteady MT3 supports various types of devices—from mirrorless cameras and action cameras to smartphones (with an adapter). This allows a single piece of equipment to be used in different scenarios without the need to purchase additional stabilizers.

## **Quick portrait/landscape mode switching**

The quick-switch system allows you to easily change the recording orientation. This is particularly useful when creating content for TikTok, Instagram, or YouTube Shorts, where the vertical format is standard.

## **Long battery life**

The battery provides up to 17 hours of runtime, which is enough for a full day of recording. This means you don't have to worry about frequent recharging during trips or longer sessions.

## **Included**

- Hohem iSteady MT3 gimbal
- Arca quick release plate
- Phone mount
- Action camera adapter
- Tripod
- Mounting screws ×2
- USB-A to USB-C cable
- USB-C control cable
- Sony Multi cable
- Allen wrench
- Documentation
