Aprašymas

ZEBLAZE Q01 AI Sports Glasses (silver)

The Zeblaze Q01 AI Sports Glasses are advanced sports glasses equipped with an 8 MP Sony IMX219 camera, a dual image stabilization system, and an AI assistant powered by Doubao and ChatGPT. They allow for 1200P video recording (up to 12 minutes of continuous recording), real-time translation, image recognition, and voice control via "Hello, Xiao Cheng." Their lightweight, durable construction, ergonomic design, and 270 mAh battery make these glasses ideal for running, cycling, climbing, and everyday outdoor activities.

Stable image and high-quality recordings

The glasses are equipped with a dual stabilization system—hardware and software—that corrects head movements in real time using a gyroscope. This results in smooth and stable recordings even during intense activities, such as riding on uneven terrain or cross-country running. The Sony IMX219 sensor, combined with transparent lenses, enables the capture of clear photos and videos in 1200P quality, while advanced image processing allows you to capture landscape details—from mountain panoramas to the night sky—with natural color reproduction. Thanks to Wi-Fi connectivity, footage can be quickly transferred to your phone.

Advanced AI Assistant and Recognition Features

The Zeblaze Q01 utilizes two AI systems—Doubao for local applications and ChatGPT for international support—providing a wide range of intelligent features. Users can ask questions, analyze their surroundings, recognize objects, and use real-time translation in over 100 languages. The One-Shot

Recognition feature enables instant identification of objects based on a photo, and the translation system allows for conversations and dialogues without language proficiency, significantly facilitating communication while traveling and during outdoor activities.

Sound, conversations, and hands-free control

The glasses feature an open audio system with a dual noise-canceling microphone that ensures clear conversations even in challenging conditions. The built-in 13 mm speaker delivers high-quality spatial sound, ideal for listening to music during physical activity. Voice control allows you to change tracks, answer calls, or check your route without reaching for your phone, enhancing convenience and safety.

Durable construction and comfortable fit

The ABS+PC construction ensures resistance to impacts, scratches, and weather conditions, while the silicone nose pads guarantee a stable fit. TAC lenses offer UV protection and glare reduction, filtering over 90% of solar radiation and improving visual comfort in bright environments. The curved frame design conforms to the face, increases stability during movement, and reduces air resistance, ensuring the glasses remain comfortable even during prolonged use in various outdoor activities.

High-capacity battery and always ready to go

The built-in 270 mAh battery provides approximately 50 minutes of video recording, over 3 hours of music playback, and over 10 hours of standby time. Charging is done via a magnetic cable and takes about 1.5 hours, allowing you to quickly prepare the glasses for your next activities. This ensures the device remains practical and ready for action all day long in the field.

Included

- AI glasses
- magnetic charging cable
- nose pad
- cleaning cloth
- glasses case
- user manual

General

Manufacturer	ZEBLAZE
Model	Q01

Design

Frame color	Black
Lens colors	Silver
Weight (without strap)	49.7 g
Frame material	Plastic
Buttons	2
Water resistance rating	IPX4 (splash-proof)

Technology

Processor	JIELI 7018F (main) + Allwinner V821 (auxiliary)
Memory	4 GB Flash
Wi-Fi	2.4 GHz
Bluetooth	BLE 5.3
AI	ChatGPT-4.1 mini
Camera	SONY IMX219 8.0 MP, image stabilization, 1280P video, 3K photos, landscape orientation
Maximum recording time	up to 12 minutes
Voice control	"Hey Cyan" activation
App	Hey Cyan
Compatibility	iOS 15+ / Android 10+
Speakers	Open-ear, spatial audio
Microphone	Noise cancellation

Battery

Capacity	270 mAh
Recording time	over 30 minutes
Music playback time	over 3 hours
Standby time	over 10 hours
Charging method	Magnetic charging cable
Charging time	about 1.5 hours

Translation

Supported languages	Simplified Chinese, English, French, German, Spanish, Japanese, Italian, Hindi, Korean, Thai, Russian, Malay, Indonesian, Greek, Czech, Romanian, Swedish, Dutch, Polish, Arabic, Persian, Urdu, Turkish, Hungarian, Hebrew, Vietnamese

Dimensions

Frame length	158.5 mm
Temple length	165.5 mm
Lens height	61 mm
