Neewer 2x660 PRO II RGB 2x200CM LED light

The Neewer 2x660 PRO II RGB is a lighting kit for creatives, photographers and filmmakers who want complete light control, mobility and stable operation in all conditions. You'll find two lamps, each offering adjustable brightness, color and color temperature, a high CRI of 97+, several interesting lighting effects, and smooth flicker-free operation. It's the perfect tool for photo shoots and more! You'll also find two aluminum tripods adjustable in height from 92 cm to 200 cm, and an oxford fabric bag for easy storage and transportation of your equipment.

Lighting tailored to your needs

With up to 50 watts of power and a brightness of 7,000 lux (at 0.5 m), the lamps provide intense, even illumination, while a CRI of 97+ guarantees natural color reproduction. At the same time, the

light generated by the lamps is pleasant to the eyes and free of annoying flicker. As a result, the set works well in situations requiring color consistency of shots and repeatable results. The lamps also let you adjust brightness (from 0-100%) and color (in HSI mode). You can also adjust the color temperature (3200-5600 K) - from warm portrait lighting to neutral or cool film tones. In addition, there is a whole set of special modes at your disposal, such as Police Car, Ambulance, Fire Truck, Fireworks, Lightning, Party, Paparazzi, Candlelight and TV Screen.

Control via app

The set supports control via a mobile app at a range of up to 15m. Channels 1-8 and ALL mode are available. In addition, the ability to save two presets speeds up work, allowing you to instantly call up the most frequently used light configurations.

Full freedom of positioning

A 360° rotating U-shaped mount allows you to position the panel at any angle. It also comes with a diffuser that evenly softens the light and improves the look of portraits. This makes the lights great for film sets or studio shoots.

Power supply tailored for studio and outdoor use

The lights can be powered by the included power adapter or by using NP-F550 / NP-F970 batteries (not included). So you can freely use them in almost any conditions - indoors and outdoors.

Included

- Flash x2
- Tripod x2
- Power supply x2
- Carrying bag
