Neewer SRP18C Selfie Kit with Round LED Phone Light

The Neewer SRP18C is a kit featuring a 48 cm diameter round RGB LED light, designed for video recording, live streaming, portrait photography, makeup application, and creating content for TikTok, YouTube, and Instagram. The light is equipped with 864 LEDs, including 288 RGB LEDs, offering 55W of power and a brightness of up to 3700 lux at a distance of 0.5 m. Color temperature adjustment in the range of 2500K-10000K allows you to easily adapt the light to the surrounding conditions and achieve a natural skin tone. Thanks to a high CRI of 95+ and a TLCI of 97, colors in photos and videos remain faithfully reproduced.

Light Adjustment and RGB Mode

The lamp allows for smooth brightness adjustment from 0 to 100%, making it easy to tailor the light intensity to your current needs. The RGB mode with a full 360° color range lets you create more creative shots and set the right mood during recordings. Users also have access to 18 FX lighting effects, such as lightning, TV light, party, and music sync. These features are particularly useful for vlogs, streaming, short videos, and content posted on social media.

App Control and User-Friendly Operation

The SRP18C can be operated both via the control panel on the light itself and through the NEEWER APP mobile app, available for Android and iOS. The built-in LCD screen allows for quick adjustment of settings, and wireless control works from a distance of up to 20 meters. The kit also includes the RT116 Bluetooth remote control, compatible with iOS and Android phones, which allows you to take photos and start recording without touching your smartphone. The 360° rotating phone mount makes it easy to record both vertical and horizontal footage.

Tripod and mobile kit for home and studio use

The kit includes an aluminum tripod with a height range of 85 to 180 cm, allowing you to comfortably position the light while working at a desk, in a home studio, or during photo shoots. The tripod folds down to approximately 50 cm, making it easier to store and transport the entire kit. The included bag allows you to carry the ring light and its accessories all in one place. However, it's worth noting that the kit requires a power supply, and for outdoor use, you'll need to purchase compatible NEEWER V-Mount or NP-F batteries separately.

Included in the set

- NEEWER SRP18C ring light
- Lighting tripod
- Phone mount
- Ball head
- Bluetooth remote control
- Power adapter
- Power cord
- Carrying bag
