Aprašymas

Neewer BH40C flexible dual-arm lighting kit

A modern setup for makeup, nail styling, eyelash extensions, or video production requires lighting that provides full control over the light and natural color reproduction. The Neewer BH40C is a professional 36W RGB kit equipped with 528 LEDs, offering brightness up to 4600 lux at 0.5 m and a very high CRI/TLCI of 98+, ensuring that skin tones, cosmetics, and details appear natural and precise. The two flexible light panels can be adjusted independently or simultaneously, creating even, soft light without unwanted shadows, which is perfect for live streaming, vlogging, portrait photography, tattooing, or work in a beauty salon.

Full light control and creative possibilities

The BH40C model offers three advanced operating modes that allow you to easily adjust the lighting to any scene and recording style. CCT mode allows you to adjust the color temperature from 2500K to 10000K and provides smooth dimming from 0-100%, helping you achieve both warm and cool light without flickering or eye strain. Additional GM correction allows for precise adjustment of the green and magenta balance. HSI mode provides access to the full RGB color spectrum with 360° color, saturation, and intensity control, while 18 preset scene effects make it easy to create dynamic shots and creative video content.

Smart control and convenience

The kit works with the NEEWER App, which allows wireless control of the light via Bluetooth from a distance of up to 15 meters. This lets you conveniently adjust lighting settings without interrupting your work or recording. The touch-sensitive color bar allows for quick color selection, and the clear LCD screen facilitates precise control of parameters. A practical addition is the 5V/2A USB port, which allows you to charge your smartphone during live streams or while recording content for TikTok or YouTube.

Adjustable tripod and recording-ready accessories

The kit includes a telescopic tripod with an adjustable height ranging from 84 to 200 cm, allowing you to conveniently adjust the lamp’s position to your workspace or shooting setup. The swivel phone mount with a flexible arm supports smartphones ranging from 6.4 to 9.5 cm in width and allows for both vertical and horizontal recording. The included Bluetooth remote lets you take photos and record videos remotely with a single button, increasing convenience when working solo and creating content.

Included

- Dual-arm lamp
- Lighting tripod
- Phone mount
- Bluetooth remote control
- Power adapter
- Power cord
- Carrying bag

Specifications
