JMGO N3 4K Projector

The JMGO N3 4K is an advanced laser projector that offers 4K resolution, Triple Laser 3.0 technology, 1,800 ISO lumens of brightness, and a 1.0–1.3x optical zoom. With a wide color gamut covering 110% of the BT.2020 color space and a 1600:1 contrast ratio, it displays detailed images with natural color reproduction. The built-in Google TV system with the official Netflix app provides access to thousands of apps and streaming services without the need to connect additional devices. An integrated gimbal with up to 160° vertical adjustment, automatic image alignment, two 10W speakers, Wi-Fi 6, and 32GB of internal storage make the projector ready for daily movie and TV show viewing and gaming on the big screen.

4K Image and Triple Laser 3.0 Technology

The projector uses MALC Triple Laser 3.0 technology, which delivers high brightness, precise colors, and a long light source lifespan. 4K resolution lets you see more detail, which you'll especially appreciate when watching movies, sports events, and games. The 1800 ISO lumen brightness

ensures excellent image visibility in typical home environments, and for larger screen sizes, you'll achieve the best results by dimming the room. 110% coverage of the BT.2020 color space and color accuracy of ΔE 0.85 ensure the image looks natural and retains a rich range of shades.

Optical zoom and a screen size from 40 to 300 inches

The JMGO N3 4K offers a 1.0–1.3x optical zoom, allowing you to adjust the image size without losing quality. This is a practical solution when the projector is in a fixed location and you want to precisely adjust the image to the available space. The device displays an image ranging from 40 to 300 inches, making it suitable for both smaller rooms and spacious living rooms. The optical zoom maintains full sharpness, so the image remains clear regardless of the selected size.

Google TV with built-in Netflix

The built-in Google TV system lets you use popular streaming platforms without additional set-top boxes. The official Netflix app runs directly on the projector, providing convenient access to movies and TV shows as soon as you turn on the device. Google Cast support allows you to quickly stream content from your phone, tablet, or laptop, and Google Assistant lets you control the projector with your voice. The 32 GB of internal storage provides more space for apps and saved data, ensuring the device runs smoothly even with heavy use.

20 W Stereo Sound

The projector is equipped with two 10 W speakers, for a total of 20 W of stereo power. This setup ensures clear and audible sound during everyday movie and TV show viewing. JMGO Master Sound HiFi technology enhances dialogue clarity and emphasizes sound effects. As a result, the projector can operate in many situations without the need to connect an external audio system.

Gimbal with vertical adjustment up to 160°

The integrated gimbal mount allows for vertical projection angle adjustment up to 160 degrees. This makes it easy to direct the image onto a wall or ceiling without using additional mounting accessories. The FlexiSmart Adaptive system automatically focuses, corrects image geometry, and adjusts brightness, reducing setup time. The eye protection feature enhances comfort during longer

viewing sessions.

Modern connectivity and quiet operation

The JMGO N3 4K supports Wi-Fi 6 and Bluetooth 5.1, ensuring a fast network connection and stable compatibility with wireless accessories. Users have access to HDMI 2.1 with eARC, USB-A 2.0, and USB-C ports, which allow for connecting a console, laptop, or external storage. Smooth performance is ensured by the MediaTek MT9629 processor, Mali-G52 graphics chip, and 2 GB of RAM. With a noise level below 26 dB, the projector operates quietly and does not distract you while watching.

Compact design and convenient use

The projector weighs 3.8 kg and measures 245 × 195 × 223 mm, making it easy to set up in various rooms. The integrated handle makes it easy to adjust the projection angle and move the device. With a power consumption of 150 W, it maintains reasonable energy efficiency while delivering high-quality images. The entire unit is designed so that the projector is ready to use almost immediately after unboxing.

Included

- JMGO N3 4K Projector
- Remote control
- Power cable
- Power adapter
- Quick start guide
- 2 AAA batteries
