

DarkFlash UV360 CPU Cooler (Black)

Modelis: UV360 Black

Gamintojas: DARKFLASH

EAN: 4711527009044

Prekės kodas: 560944

247.99€

DarkFlash UV360 CPU Cooler (Black)

The DarkFlash UV360 is an advanced 360mm AIO water cooling system that combines very high performance with extensive customization options. The most distinctive feature of the kit is the curved 6.67-inch 2K OLED display with a 60 Hz refresh rate, mounted on the water block. The display offers a 3D effect without the need for glasses and allows you to monitor your computer's parameters in real time as well as display your own photos, animations, and videos. The cooling system supports select Intel and AMD processors, utilizes a pump operating at approximately 2500 RPM, and features an integrated module of three 120mm fans with ARGB lighting. This is an option for users who expect not only effective heat dissipation but also a spectacular visual effect.

6.67" Curved OLED Screen with 3D Effect

The water block is equipped with an impressive 6.67-inch 2K OLED display that delivers an extremely detailed image and smooth animations thanks to a 60 Hz refresh rate. The curved design

enhances the sense of depth, and the display technology enables a three-dimensional image without the need for glasses. Using dedicated software, you can configure the display of selected parameters, such as temperature or component load, as well as your own content in PNG, JPG, GIF, MP4, and AVI formats. The magnetic mount allows you to freely rotate the screen and position it at the optimal angle—including in portrait orientation. Give your computer a unique look!

Impressive performance

The UV360 model is designed for the latest high-power Intel and AMD processors. Support for TDP up to 320 W allows it to effectively maintain stable temperatures during intense gaming, rendering, or working with demanding applications. The copper base of the water block quickly dissipates heat from the processor, while the high-performance pump ensures efficient fluid circulation. Additionally, the 397 × 120 × 27 mm heatsink is made of high-density aluminum and features a low-hydraulic-resistance design. The increased contact area between the flow channels and the fins improves heat transfer efficiency, resulting in more effective cooling. Pre-installed fans further speed up and simplify installation.

Three fans with PWM functionality

Three 120 × 120 × 30 mm fans form a single module that can be connected with a single cable. The daisy-chain solution greatly simplifies installation and improves the aesthetics of the computer's interior. Speeds ranging from 800 to 2000 RPM, airflow up to 55.22 CFM, and static pressure up to 2.16 mmH₂O ensure efficient cooling and allow for stable computer operation even under heavy load. Meanwhile, robust hydraulic bearings extend the lifespan to 40,000 hours and help reduce noise. The PWM control function automatically adjusts fan speeds to the CPU temperature, ensuring an optimal balance between performance and quiet operation. The maximum noise level is 36 dBA. As a result, the cooler effectively dissipates heat without interfering with work or gaming.

ARGB Sync and Organized Cabling

The UV360 supports 5V 3-pin ARGB lighting, compatible with ASUS Aura Sync, MSI Mystic Light Sync, ASRock Polychrome Sync, and other popular control systems. A single cable connecting the ARGB and PWM connectors simplifies setup and helps keep the inside of the case tidy. The package also includes USB-C to USB Header and USB-C to USB-A cables.

Wide compatibility with Intel and AMD

The DarkFlash UV360 is compatible with Intel LGA 1200, 115x, 1700, and 18xx sockets, as well as AMD AM5, AM4, and AM3 sockets. This allows the cooler to be successfully used on both the latest platforms and many older configurations. Additionally, the kit includes thermal paste to facilitate installation preparation.

Included

- Radiator and pump
- 120 mm fan x3
- Display
- User manual
- Set of mounting screws
- Accessory kit
- Thermal paste
- Hose kit

Manufacturer	DarkFlash
Model	UV360
Color	Black
Display	2K OLED 60 Hz
Display diagonal	6.67"
TDP	320 W
Water block dimensions	80.1 × 112.8 × 102 mm
Water block material	Block – copper, housing – plastic
Pump speed	2500 ±10% RPM
Pump voltage	DC 12 V
Pump noise level	30 ±10% dBA
Heat sink material	High-density aluminum

Heat sink dimensions	397 × 120 × 27 mm
Hoses	Woven sliding hoses
Hose length	460 mm
Number of fans	3
Fan dimensions	120 × 120 × 30 mm
Bearing	Hydraulic
Speed control	PWM
Fan speed	800-2000 ±10% RPM

Maximum fan noise level 36 ±10% dBA

Maximum airflow 55.22 CFM

Maximum static pressure 2.16 mmH₂O

Fan lifespan Up to 40,000 hours

Backlighting ARGB 5 V 3-pin

Intel compatibility LGA 1200 / 115x / 1700 / 18xx

AMD compatibility AM5 / AM4 / AM3
