Aprašymas

Maono WM622 PBC2 microphone

The Maono WM622 PBC2 is a compact wireless microphone created for iPhone and iPad users, offering studio-quality sound, four-level noise reduction backed by AI (Artificial Intelligence), 360° sound collection and full iOS 18 compatibility. With MFi certification (Made for iPhone/iPod/iPad, a standard created by Apple for cables and other accessories for its devices), it provides safe recording and charging at the same time, while transmission up to 100 meters and a battery that lasts up to 30 hours with a charging case allow you to work without interruption. The intuitive Maono Link app allows full control over audio, voice filters and tone changes, and features like quick shooting, recording and listening without removing the microphone make it a reliable tool for creators, streamers and vloggers.

Crystal clear sound

The microphone features enhanced four-stage noise reduction based on AI technology. Choose from four levels (12dB for quiet rooms, -18dB for open plan offices, -23dB in noisy environments, -29dB in very noisy environments) - all depending on the conditions in which you are recording. This solution will be especially appreciated by roleplayers on Instagram, YouTub or TikTok.

Studio quality in the mobile version

The device records audio in 48kHz/16bit quality, with a frequency range of 20Hz-20kHz and a signal-to-noise ratio of 85dB. This means that every word and detail will be captured clearly, without distortion or noise. A gain control with a range of 32dB allows the microphone to adapt to a variety

of conditions - from a quiet room to loud outdoor events.

Designed with Apple users in mind

The microphone is MFi certified, which means full compatibility with Apple devices, including the latest iOS 18. Secure charging, smooth data transfer and no system errors - all approved according to Apple standards. On top of that, it allows you to charge your phone while recording, without the need for adapters or splitters. From now on, nothing will interrupt your work!

Record without stress - even throughout the day

Maono WM622 PBC2 will not let you down when time is of the essence. The transmitter works for up to 6 hours on a single charge, and with the included charging case the total usage time is up to 30 hours. Fast charging is an added bonus - it only takes 5 minutes to get an hour of use. The microphone automatically shuts off when it detects inactivity, which saves its battery and extends its life.

Full control over the sound

Using the Maono Link app, you can instantly check the charge level of your equipment, adjust the volume and noise reduction levels or select one of the professional sound filters. All this without the need to plug in additional equipment - all you need is your phone. The app is available for both iOS and Android.

Features that stimulate creativity

The Maono WM622 PBC2 offers additional capabilities that video creators will love. With a double tap, you can quickly take a photo or start recording. The "unplug-free playback" function allows you to listen without unplugging the microphone - great for quick auditions of footage. The microphone also features four professional voice filters (brightness, warmth, bass, gain) and the ability to modify your voice with AI (e.g. goddess, lolita, uncle, natural), perfect for streamers, gamers or influencers looking for creative fun with sound.

Stable transmission

The microphone's 6-millimeter core provides high sensitivity and 360° audio capture, so every word is picked up no matter how you move or where you are. With a range of up to 100 meters, you can record in larger spaces without risking signal loss. This is equipment for people who want to act quickly, effectively and professionally. Lightweight, compact, Apple-compatible and packed with smart features - the Maono WM622 PBC2 gives you creative freedom without limits.

Included

- x2 transmitter
- Type-C receiver
- Lightning receiver
- charging case
- USB-C to USB-A charging cable
- storage bag
- user manual

Manufacturer	Maono
Model	WM622 PBC2
Compatibility	iOS 18 and later, MFi certification
Sound quality	48kHz / 16-bit
Frequency response	20Hz - 20kHz

Signal-to-noise ratio (SNR)	≥ 85 dB
Gain control	Range up to 32 dB (control via app)
Noise reduction	4-level (-12 dB, -18 dB, -23 dB, -29 dB)
Microphone core	6 mm, 360° omnidirectional sensitivity
Voice filters	4 filters (sound boost, brightness, warmth, hoarseness)
AI voice modifier	4 modes: goddess, lolita, uncle, original
Sound limiter (limiter)	Automatic
Transmission range	Up to 100 meters (unobstructed)
Operating time	6 hours (transmitter), up to 30 hours with charging case
Charging	5 minutes of charging = 1 hour of operation
App	Maono Link (iOS / Android)
Remote control	Double tap - remotely take photos and record video

Wireless: Yes, GPSR Link: https://psr-assets.innpro.pl/gaming/sg_gaming_microphones.pdf, Gross weight: 180, Net weight: 137, Box length: 9,50, Box width: 9,50, Box height: 6,50, Information about data generation: https://dataact.innpro.pl/maono/6972237683230
