Aprašymas

Neewer GL1C RGB LED lamp 48W 2900-7000K

The Neewer GL1C is a professional LED lamp designed for streamers and content creators, offering soft, diffused light, a wide color gamut (36,000 HSI shades) and adjustable color temperature from 2900K to 7000K. With 18 lighting effects, music synchronization and advanced control options - via Bluetooth, WiFi and 2.4G USB - the lamp provides full control and creativity to create unique atmospheres. The compact design, 135° rotation and compatibility with the Elgato Stream Deck make the Neewer GL1C an indispensable tool for studio work.

Perfect lighting in any situation

Thanks to side-emitting (edge lighting) technology, the lamp provides soft, diffused light that is ideal for live broadcasts, photo shoots or video productions. The unique mix of 144 RGBWW LEDs offers an impressive brightness of 4300 lux at a distance of 0.5 meters, guaranteeing professional results in any application. These assets make the device an indispensable companion for any streamer or content creator.

Richness of colors and effects - full control of creativity

The Neewer GL1C is distinguished by a wide range of colors and features tailored to the diverse needs of creators. HSI mode provides access to 36,000 colors, allowing fine-tuning of colors. Adjustable color temperature from 2900K to 7000K allows seamless transitions between warm, moody light and cool, technical lighting. An FX mode with 18 special effects, such as lightning, fireworks and explosion simulation, adds a unique touch to projects, and a music sync function allows for even more immersive effects.
