### Freewell Filter Set for OSMO Action 6 "Bright Day" - 4 pcs.

The Freewell Bright Day filter set for DJI Osmo Action 6 is a practical solution for those who mainly record on sunny days. The set includes four ND/PL filters (ND8/PL, ND16/PL, ND32/PL, ND64/PL), which combine the functions of a gray and polarizing filter. This combination allows for better control of the amount of light reaching the lens and at the same time reduces glare – especially useful when filming over water or in the mountains.

### Better contrast and colors in all conditions

Thanks to the filters in this set, recordings from the Osmo Action 6 gain clarity – colors are more saturated and the contrast better reflects reality. Each filter is tailored to a different level of sunlight, allowing you to quickly adapt to changing conditions. The lenses are made of scratch-resistant
