TIMEKETTLE M3 Offline Translation Earbuds (white)

Forget about language barriers and inconvenient compromises – TIMEKETTLE M3 Offline makes conversations in foreign languages natural and easy. Intelligent translation modes adapt to the situation, and fast and accurate translations allow you to fully focus on the conversation. Clear sound, active noise reduction, and refined music playback make these headphones perfect for everyday use. Long battery life, stable Bluetooth connection, and splash resistance give you complete freedom of use – whether you're traveling, working, or just out and about.

Three translation modes to suit the situation

The M3 offers three advanced modes to meet different communication needs. Touch mode allows for uninterrupted conversation – patented simultaneous translation technology instantly captures your

voice and translates it into fluent, natural-sounding target language. It's the perfect solution for everyday conversations, business meetings, dates, or in-depth discussions. Listening mode automatically recognizes speech, translates it in real time, and plays it back directly into the headphones, with the conversation recorded for later review. The speaking mode, on the other hand, allows for quick interactions on the go—all you need is one earbud in your ear and your smartphone in your hand to ask for directions or place an order, without having to hand the earbuds to the other person.

Global communication without barriers

TIMEKETTLE M3 headphones support 43 languages and 96 accents, covering most countries and regions of the world. The system intelligently adapts to dialectal differences, making conversations more natural and understandable. This solution is designed for people who travel frequently, work in an international environment, or want to communicate freely across language barriers.

Crystal-clear voice in all conditions

Two noise-canceling microphones and an intelligent ENC beamforming algorithm, which effectively eliminates ambient noise and optimizes voice recording, ensure high-quality calls. Whether you're talking in a crowded city, at an airport, or in an office, you can count on clear and crisp communication.

Speed and precision you can trust

Using six of the world's leading translation engines—including DeepL, Google, Microsoft, iFlytek, AmiVoice, and Hoya—along with Timekettle's proprietary solutions, the headphones offer 95% accuracy and a delay of just 0.5 seconds. This translates into natural conversations, even during dynamic meetings or intense discussions.

Active noise reduction and powerful battery

TIMEKETTLE M3 provides active noise reduction of up to 30 dB thanks to a precise ANC controller. This allows you to focus on your conversation or music without compromise, while remaining comfortable to wear for hours on end. What's more, a single full charge provides approximately 7.5

hours of use, and the charging case extends this time to up to 25 hours. That's enough to accompany you throughout a day of travel, meetings, or intense work without having to constantly reach for the charger.

Premium sound

At the heart of the headphones is a 10mm high-efficiency driver, tuned in Timekettle's acoustic lab. Four-channel analog stereo sound and support for AAC and mSBC codecs ensure full, balanced sound with clear bass, midrange, and treble tones—both when listening to music and during calls.

Stable connection and low latency

Smooth and stable performance is ensured by 40 nm process technology, a high-performance 32-bit RISC-V chip, and support for digital signal processing and neural network acceleration. The dual Bluetooth 5.2 module provides a range of over 10 meters and low latency, which translates into comfortable, interference-free use.

Resistance to everyday challenges

The IPX4-compliant housing protects the headphones from splashes, sweat, rain, and even accidental contact with water. Additional ESD antistatic protection and OVP overvoltage protection increase the durability of the device, making it a reliable companion for everyday activities.

Included

- earphones
- USB-C cable
- charging case
- ear tips (two pairs)
- fish pattern stickers x30
- user manual

Manufacturer	TIMEKETTLE
Model	M3 Offline
