LEPRO T1 1800lm Smart Ceiling Light

Modern lighting can do much more than just brighten a room, and the LEPRO T1 is a great example of this. This smart ceiling light combines high brightness, full color customization, and AI features that help you create the perfect atmosphere without having to delve into settings. You can control it with your voice, sync the light to music, set schedules tailored to your daily routine, and enjoy millions of colors and a wide range of whites. All of this is housed in an elegant, minimalist, moisture-resistant design, making the light perfect for the living room, bedroom, or bathroom.

AI that creates professional lighting

The LEPRO T1 utilizes Lepro AI LightGPM 2 technology—an advanced language model developed based on knowledge of color psychology and lighting design. Thanks to its architecture based on a transformer decoder system, it can generate professionally tailored lighting scenes without the need for manual parameter adjustments. This means that a simple voice command is all it takes to create

the right mood for resting, working, watching a movie, or evening relaxation. It's a smart approach to lighting that eliminates the need to experiment with colors and color temperature.

Voice control and everyday convenience

The lamp's interface is designed to be quick and intuitive to use. The LEPRO T1 supports voice control and works with Amazon Alexa and Google Assistant, so you can adjust the light settings without reaching for your phone or a switch. The voice command recognition system lets you instantly adjust the brightness, color, or lighting mode to your current needs. Additionally, the Lepro app enables convenient group control, which is especially useful when you want to synchronize several lights throughout your home.

16 million colors and perfect white

Whether you want to create a cozy ambiance in the evening, an energetic atmosphere during a get-together with friends, or bright light for work, the LEPRO T1 offers vast customization possibilities. The lamp features up to 16 million colors and color temperature adjustment from 2700K to 5700K. Warm tones help you unwind and relax, while cooler light supports concentration and daily activities. With a brightness of 1,800 lumens, this model can easily illuminate both smaller and larger rooms.

Light synchronized with music

The LightBeats Music Sync feature lets you turn ordinary lighting into a dynamic element of home entertainment. The lamp reacts to the rhythm of the music and automatically adjusts the lighting effects to the sounds being played, creating a unique atmosphere during parties, movie nights, or an evening of relaxation with your favorite playlist. It's a simple way to give your interior a more immersive feel.

Smart Light Schedule

The LEPRO T1 also helps ensure daily comfort and a better daily rhythm. The Smart Light Timer feature allows you to set lamp schedules tailored to your daily routine. The light can gradually brighten in the morning, helping you start your day more gently, and softly dim in the evening, promoting relaxation before bed. Automatic scenarios ensure the lighting works exactly when you

need it—without the need for manual operation.

Elegant design for various rooms

The minimalist design, with a diameter of 290 mm and a height of 65 mm, ensures the lamp blends perfectly with modern interiors. The lamp looks aesthetically pleasing in the living room, bedroom, or teen’s room, as well as in the kitchen or bathroom. The IP44 waterproof rating protects the fixture from moisture and splashes, allowing the LEPRO T1 to be safely used even in more demanding environments. The energy-efficient 24W LED lighting combines high performance with the comfort of everyday use.
