Aprašymas

The HP EliteBook 8 G2i Next Gen Notebook is a business-focused notebook designed to deliver responsive productivity, built-in AI capabilities, and robust security for hybrid work. It pairs Intel Core Ultra 7 Series 3 processing with an Intel AI Boost neural processor to accelerate on-device AI tasks and support Copilot+ PC experiences, while integrated Intel Graphics provides everyday visual performance for presentations and collaboration. Connectivity and collaboration are streamlined with multiple USB?C and USB4/Thunderbolt 4 ports that support DisplayPort and Power Delivery, an HDMI port, and audio tuned for clear calls with AI noise reduction and Poly Studio?certified dual stereo speakers. Durable, security-minded features include a spill-resistant HP Premium keyboard, MIL-STD-810H testing, secured-core PC enablement, HP DriveLock, and HP Tamper Lock to help protect data and device integrity, while fast-charge capability helps keep the system ready throughout the workday.
