X2 V2 dual-fan cooling system and smaller form factor make it an ideal choice for systems where space is a premium, without compromising on thermal management.

Key Features and Performance Benefits:

- **NVIDIA Ampere Architecture:** Experience dedicated 2nd generation RT Cores and 3rd generation Tensor Cores for realistic graphics rendering and powerful AI performance boost.
- **6GB GDDR6 VRAM:** Provides fast access to textures and supports stable performance in demanding applications and modern games.
- **DLSS Acceleration:** NVIDIA DLSS (Deep Learning Super Sampling) uses AI rendering to boost frame rates significantly while maintaining crisp image quality.
- **Twin X2 V2 Cooling System:** The robust dual-fan configuration ensures highly effective heat dissipation, keeping the card running cool and quiet even under heavy load.
- **Ray Tracing Capability:** Enjoy immersive, lifelike lighting, shadows, and reflections in compatible games, enhancing visual fidelity.

Upgrade your desktop with the INNO3D RTX 3050 Twin X2 V2 Special for a significant boost in visual fidelity and speed, ensuring readiness for current and future games.

INNO3D is recognized globally for producing high-quality, reliable graphics accelerators, specializing in custom cooling solutions that maximize performance and longevity for gamers and professional users.
