Pagrindinės savybės

- ✓ Vidaus Terminalo dizainas Balta
- ✓ 60,5 cm (23.8") 1920 x 1080 pikseliai 250 cd/m²
- ✓ Lietimui jautrus ekranas 14 ms
- ✓ Ethernet LAN jungtis „Wi-Fi“

Aprašymas

Designed for every business, delivering peace of mind

Samsung's latest technology delivers a new standard of kiosk, offering a compact, space-saving design, advanced security provided by Knox and easy management and maintenance for reliable performance. Built based on Samsung's SoC(System on Chip) technology, it is the ideal solution for any business.

Modular functionality to support any payment type

The Samsung Kiosk adopts a modular design that provides a variety of payment options including credit card, barcode, QR code and NFC, along with a built-in printer. This means it needs no additional peripherals for an advanced, all-in-one solution that also makes maintenance fast and easy.

Compact and modern design

Samsung Kiosk is composed of a single display part and connection box, along with an optional stand. The design enables clean and convenient cable management while the grey-white colour and simple stand means the kiosk blends perfectly into any store interior with a stylish look.

Versatile solution for any scenario

For enhanced flexibility in any business environment, Samsung's new kiosk offers three installation types – countertop, floor stand and wall-mounting – along with hidden cabling and power strip, with no external PC needed either for optimised space saving.

Keep the screen clean

Thanks to an antimicrobial coating, Samsung Kiosk inhibits microbial growth to help protect against certain bacteria. This enables customers to stay focused on what's on the screen with peace of mind.

Minimise accidents and risks

Shatterproof protection

Samsung understands that accidents happen. To protect students and educators, the Samsung Kiosk screen is wrapped in a proprietary shatterproof film, ensuring the screen stays intact in the event of a break.

Powerful solution with no PC needed

Samsung Kiosk is built based on Samsung's proven SoC(System on Chip) technology. This enables the kiosk to function without the need for an external PC, further highlighting Samsung's leadership in the PC-less solution space, while delivering powerful and reliable technology.

Powerful, protective security

The kiosk uses three-layer security protection powered by Samsung Knox technology, which supports application development on the secured platform, the protection of important customer data and effective minimisation of security attacks for a powerful, comprehensive security solution.

Display monitoring and management

Samsung Kiosk provides a proven remote monitoring solution, allowing managers to view display information, check peripheral devices and resolve errors. Remote control capabilities also enable the diagnosis of issues and remote control of essential functions such as switching the screen on and off.

Techninė specifikacija

Ekranas	
Ekranas įstrižainė	60,5 cm (23.8")
Ekranas rezoliucija	1920 x 1080 pikseliai
Ekranas ryškumas	250 cd/m²
HD tipas	„Full HD“
Lietimui jautrus ekranas	Taip
Liečiamo ekranas technologija	Talpinis
Reakcijos laikas	14 ms
Kontrasto santykis (tipinis)	1000:1
Dinaminio kontrasto santykio prekinis pavadinimas	„Mega Contrast“
Matymo kampas, horizontalus	178°
Matymo kampas, vertikalus	178°
Pikselių žingsnis	0,2745 x 0,2745 mm
Spalvų sodrumas	72%
Horizontali diapazono riba	48 - 75 kHz
Vertikali diapazono riba	56 - 84,5 Hz
Ryšys	
HDMI portų kiekis	1
USB prievadas	Taip
HDMI įėjimo prievadų kiekis	1
USB prievadų skaičius	1
Ethernet LAN (RJ-45) portų kiekis	1
Konstrukcija	
Gaminio konstrukcija	Terminalo dizainas
Produkto spalva	Balta
Talpinimas palaikomas	Vidaus
Veikimo charakteristikos	
Paskirtis	Komerčinis
Darbo valandos (valandos / dienos)	16/7
Energijos valdymas	
Energijos suvartojimas	49,5 W
Energijos suvartojimas (sleep mode)	0,5 W
AC įėjimo įtampa	100 - 240 V

AC įėjimo dažnis	50 - 60 Hz
