SwitchBot AI Art Frame 31.5"

Bring art into the digital world and transform the look of your home in just a few moments. The SwitchBot AI Art Frame 31.5" combines E Ink Spectra™ 6 technology with AI features, allowing you to create your own images based on text commands and display them on a full-color ePaper screen supporting 65,000 colors. A large display with a resolution of 2560 × 1440 pixels, 2.4 GHz Wi-Fi and Bluetooth 4.2 connectivity, and app-based control turn this frame into a dynamic art gallery tailored to your style, mood, or occasion.

A paper-like aesthetic without glare

The E Ink Spectra™ 6 panel faithfully reproduces the look of a traditional print, offering a natural, paper-like texture to the image. The technology uses microscopic ink particles in white, yellow, red,

and cyan, making the displayed graphics resemble works presented on paper. An additional advantage is the absence of glare and blue light, allowing you to comfortably display images in your living room, bedroom, or home office—even in well-lit rooms.

Create Your Own Art with AI

The SwitchBot AI Art Frame is not just a digital frame, but also a creative tool. Its AI features include text-to-image generation, creating new images based on existing photos (image-to-image), AI filters, and automatic image description generation. This allows you to easily create unique compositions and display them instantly on the screen, without the need for additional graphics software. Access to AI image generation and editing features requires an active SwitchBot AI Creation Model subscription, which costs \$3.99 per month (the first month is free). If you don't plan to use the AI features, a subscription is not required for standard use of the frame.

Smart Content Management

The SwitchBot app lets you conveniently upload images and schedule their display. You can set images to change automatically based on the time of day, holidays, or important events, as well as showcase family photos and your own projects. Available modes include Gallery, which lets you display a single image or change it according to a schedule, and Slideshow, which automatically cycles through images at set intervals.

An elegant design for modern interiors

The frame is made of aluminum alloy and features a white, acid-free mat that highlights the character of the displayed artwork. The 31.5" model measures 91 × 61 × 3.5 cm and weighs 5 kg, making it an ideal centerpiece for larger rooms. The manufacturer recommends viewing the image from a distance of approximately 120 cm or more, which allows you to fully appreciate the distinctive effect of the E Ink paper display.

Included in the set

- AI Photo Frame × 1
- Soft pads × 3
