Aprašymas

BlitzWolf BW-AG1 AI Smart Photochromic Sunglasses

The BlitzWolf BW-AG1 are photochromic sunglasses that automatically adjust their tint level to lighting conditions while offering health and activity tracking features and AI support. This model measures heart rate, blood oxygen levels, and temperature, and analyzes UV radiation in real time, giving the user access to key data in any situation. Additionally, built-in Bluetooth audio and translation features make the glasses suitable for both outdoor and indoor use.

Photochromic lenses and real-time UV analysis

The photochromic lenses automatically adjust to light intensity, darkening outdoors and lightening indoors. This eliminates the need to switch glasses depending on conditions, significantly enhancing user comfort. A built-in UV sensor additionally analyzes radiation levels, providing up-to-date data in the app.

Health and temperature monitoring in a single device

Sensors measure heart rate and SpO_2 levels, making it easier to assess your physical condition both during activity and at rest. Additionally, the temperature measurement feature allows you to observe changes under various environmental conditions. The collected data helps you better understand your body’s reactions and respond more quickly to any changes.

AI features and real-time translation

The glasses support the user with AI-powered features that simplify daily tasks. Real-time translation covers over 100 languages, making it ideal for travel and work. The voice assistant allows for quick, hands-free command execution, enhancing convenience and safety.

Activity and Daily Movement Tracking

The BW-AG1 model tracks the number of steps and physical activity throughout the day, helping you monitor your activity levels. Regular access to this data makes it easier to build healthy habits and track your progress. The information available in the app allows you to analyze your activity and better plan your daily exercise.

Hi-Fi sound and convenient Bluetooth communication

The built-in audio system delivers clear and balanced sound, making the glasses work well as headphones too. Users can make phone calls or listen to music without needing additional accessories. A stable Bluetooth connection and high-quality audio enhance the comfort of daily use. Additionally, the high-capacity battery allows for extended use without frequent charging.

Included

- Glasses
- Magnetic charging cable
- Glasses cleaning cloth
- Storage case
- User manual

Manufacturer	BlitzWolf
Model	BW-AG1
Chip	Realtek 8773E
Heart rate sensor	Vic-VC30F
UV sensor	Vcare VAL10A
Blood oxygen sensor	Infrared + VC30F
Gravity sensor	Sitronix STK8321
Water resistance rating	IP66
Battery capacity	260mAh
Charging method	Magnetic charging (short-circuit protection)
Battery life	2–3 days of use, 20+ days on standby
Finish	TR
App	DeepFit
AI app	DanaID
Supported languages (DeepFit app)	Simplified Chinese, Traditional Chinese, English, Japanese, Korean, German, Russian, Spanish, Italian, French, Portuguese, Swedish, Turkish
