Aprašymas

BlitzWolf BW-AG1 AI Smart Glasses with Blue Light Filter

The BlitzWolf BW-AG1 glasses with a blue light filter are designed for people who spend a lot of time in front of screens and want to take advantage of smart features. The glasses combine blue light protection with health monitoring and AI features, offering comprehensive support for everyday use. Additionally, they feature Bluetooth audio, heart rate, SpO_2, and temperature monitoring, making them a practical tool for both work and leisure.

Blue light filter and everyday eye protection

The blue light filter reduces the emission of harmful light from computer screens, smartphones, and tablets. This reduces eye strain during long periods of work or entertainment, resulting in greater comfort and a lower risk of irritation. The glasses are particularly effective in the office, at home, or while working remotely, where screen exposure is constant.

Health and temperature monitoring in a single device

Built-in sensors measure heart rate and blood oxygen levels (SpO_2), helping you better monitor your condition throughout the day. The temperature measurement feature also allows you to track changes based on your environment and activity. This gives you quick access to data that can help assess your well-being.

AI features and real-time translation

The glasses are equipped with AI-powered features that support communication and daily tasks. The translation feature supports over 100 languages, which is useful when traveling or during international conversations. The voice assistant allows you to quickly issue commands without having to use your phone. These solutions enhance convenience and help you make better use of the device’s capabilities.

Activity and daily movement tracking

The BW-AG1 model records step count and physical activity, helping you stay on top of your daily movement. Regular monitoring makes it easier to build healthy habits and track progress. Data available in the app simplifies activity analysis and motivates you to be more consistent. As a result, the glasses can serve as a tool to support your fitness routine.

Hi-Fi Sound and Bluetooth Connectivity

The built-in audio system delivers clear and balanced sound, allowing the glasses to replace traditional headphones. You can make phone calls or listen to music without additional devices. A stable Bluetooth connection and high-quality sound enhance the comfort of daily use. Additionally, the high-capacity battery allows you to use the audio features for extended periods.

Included

- Glasses
- Magnetic charging cable
- Glasses cleaning cloth
- Storage case
- User manual

Manufacturer	BlitzWolf
Model	BW-AG1
Chip	Realtek 8773E
Heart rate sensor	Vic-VC30F
UV sensor	Vcare VAL10A
Blood oxygen sensor	Infrared + VC30F
Gravity sensor	Sitronix STK8321
Water resistance rating	IP66
Battery capacity	260mAh
Charging method	Magnetic charging (short-circuit protection)
