Aprašymas

BlitzWolf BW-AG1 AI Smart Glasses with Red Lenses

The BlitzWolf BW-AG1 AI Smart Glasses with Red Lenses combine cutting-edge smart features with a bold, sporty style. The model offers health monitoring, UV analysis, AI features, and built-in Bluetooth audio, while standing out with red-tinted lenses that improve visual comfort in bright environments. This makes the glasses perfect for outdoor activities.

Red lenses and visual comfort in the sun

The red lenses help reduce glare and improve visual contrast in bright conditions. This reduces eye strain when outdoors, especially on sunny days or during activities such as running or cycling. Additionally, the sunglasses are equipped with a UV sensor that analyzes radiation levels in real time.

Health and temperature monitoring in a single device

Built-in sensors measure heart rate and blood oxygen saturation (SpO_2), making it easier to assess your condition both during activity and at rest. The temperature measurement feature also allows you to track changes under various environmental conditions. This gives the user quick access to data that helps better understand the body’s reactions.

AI features and real-time translation

The glasses assist the user with AI-powered solutions that simplify daily tasks. The translation feature covers over 100 languages, which is useful for travel and international communication. The voice assistant allows you to quickly execute commands without having to reach for your phone. As a result, the glasses become a practical tool for communication and organization.

Activity and Daily Movement Tracking

The BW-AG1 model records the number of steps and physical activity throughout the day, helping you monitor your activity levels. Regular tracking makes it easier to build healthy habits and maintain consistency. Data available in the app allows you to analyze your progress and better plan your activities. As a result, the glasses can serve as a simple aid in staying fit.

Hi-Fi sound and convenient Bluetooth communication

The built-in audio system delivers clear and balanced sound, allowing the glasses to replace traditional headphones. You can comfortably make phone calls or listen to music without additional devices. A stable Bluetooth connection ensures a comfortable user experience in various situations, whether on the go or at work. Additionally, the high-capacity battery allows for extended use of audio features and calls.

Included

- Glasses
- Magnetic charging cable
- Glasses cleaning cloth
- Storage case
- User manual

Manufacturer	BlitzWolf
Model	BW-AG1
Chip	Realtek 8773E
Heart rate sensor	Vic-VC30F
UV sensor	Vcare VAL10A
Blood oxygen sensor	Infrared + VC30F
Gravity sensor	Sitronix STK8321
Water resistance rating	IP66
Battery capacity	260mAh
Charging method	Magnetic charging (short-circuit protection)
